

AMARYLLIDACEAE

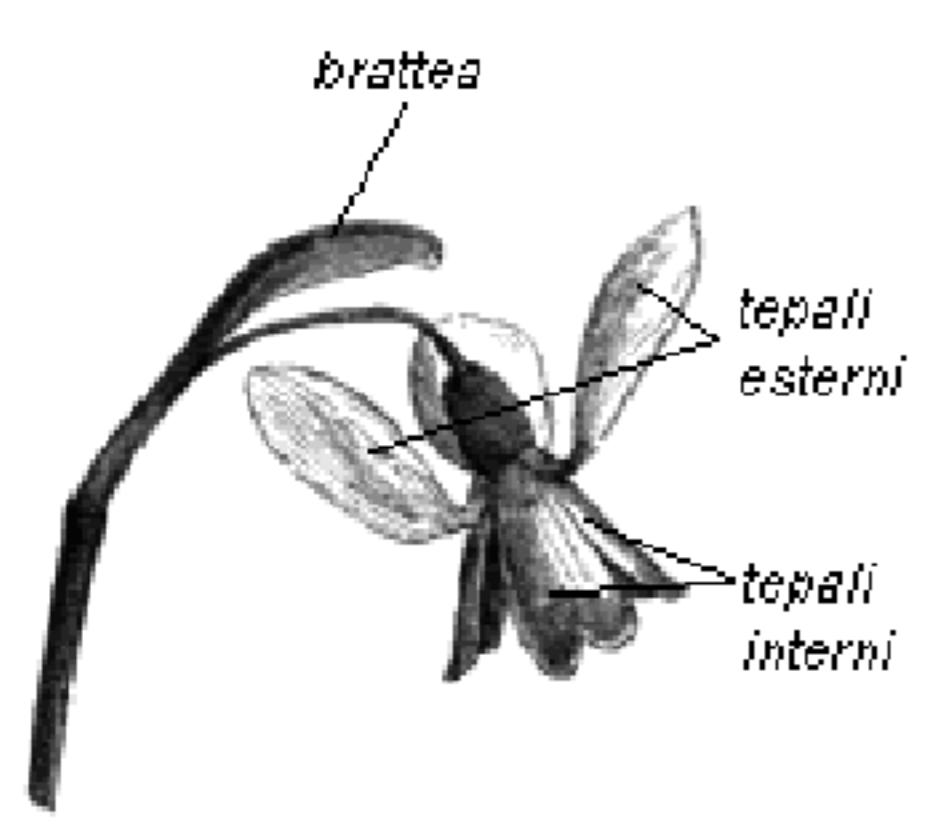

Narcissus pseudonarcissus L.
(tromboncino)

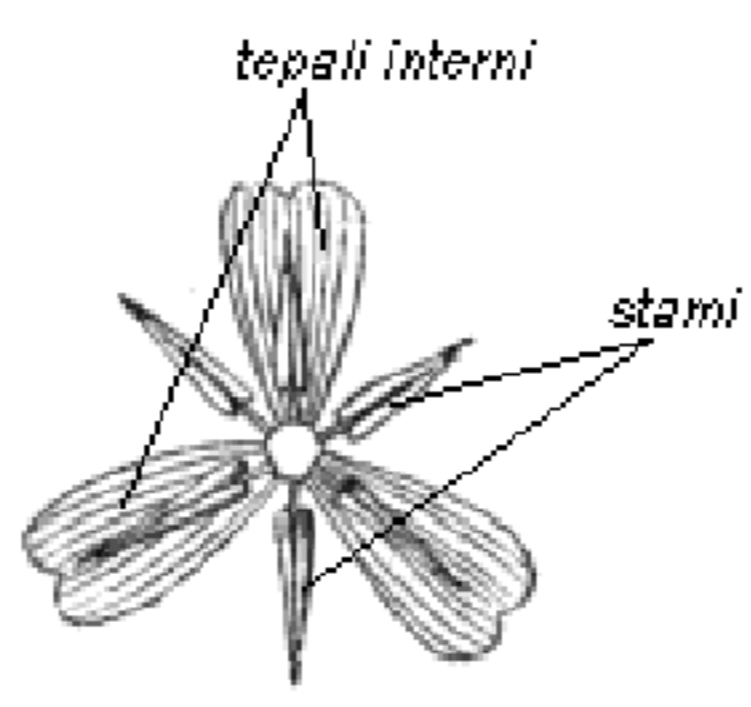

sezione del fiore

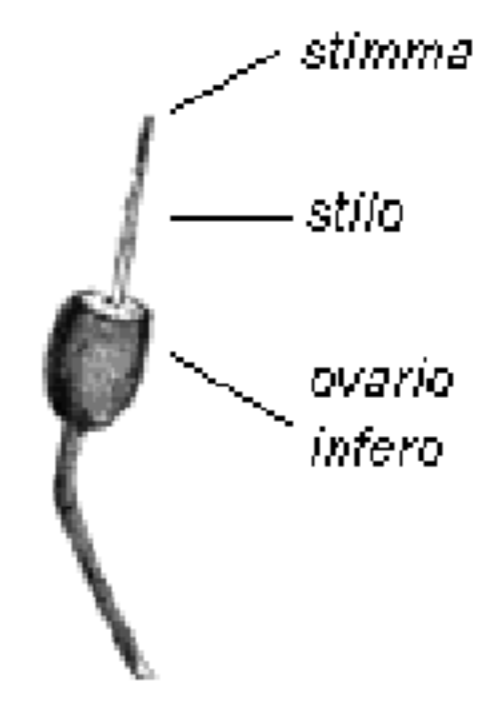

gineceo

Galanthus nivalis L.
(bucaneve)

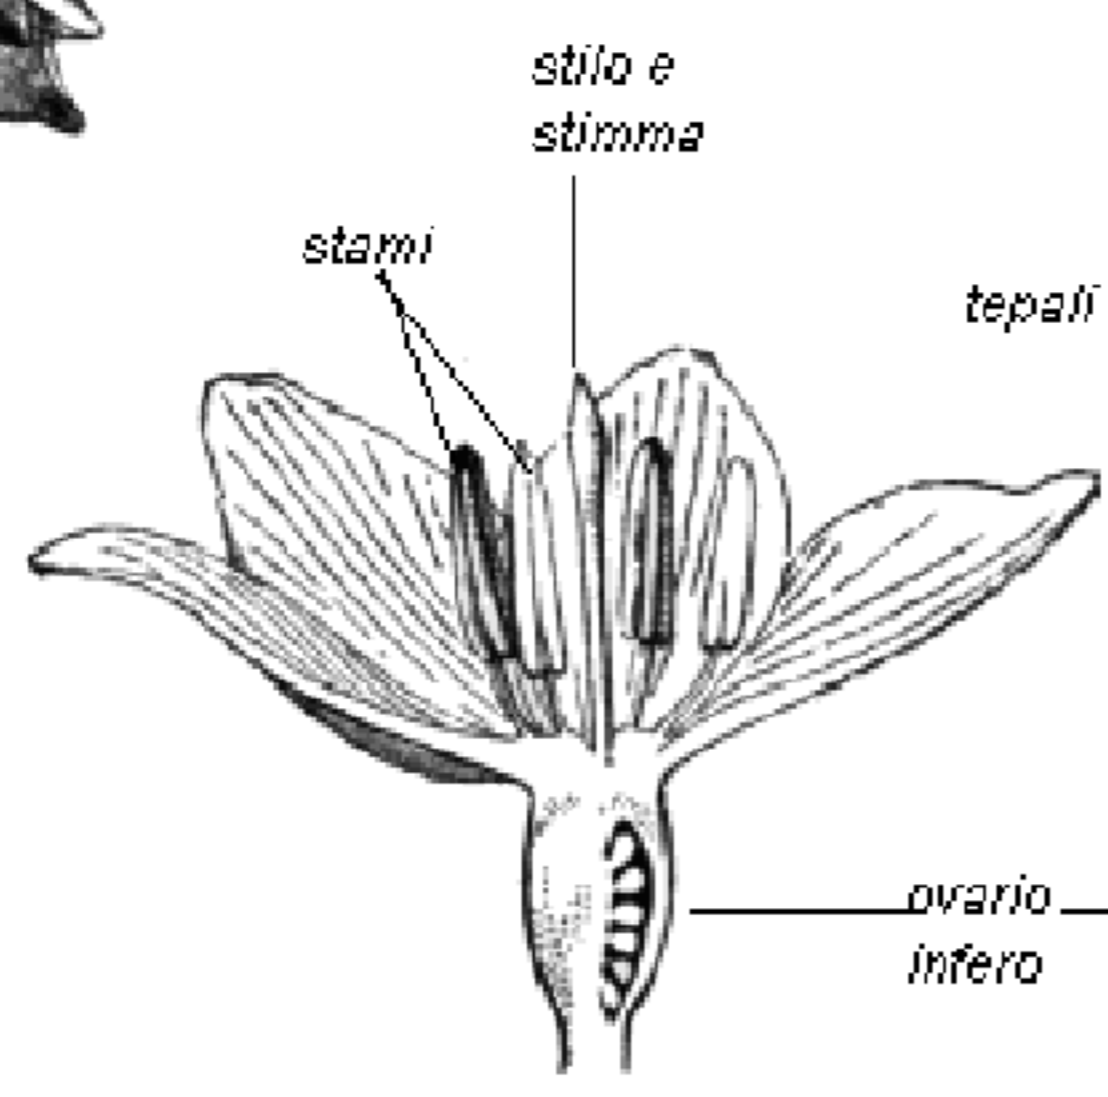

fiore visto dall'alto

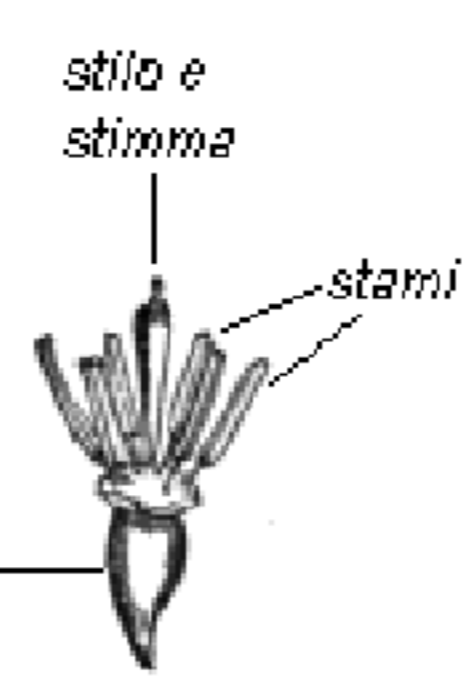

gineceo

Leucojum vernum L.

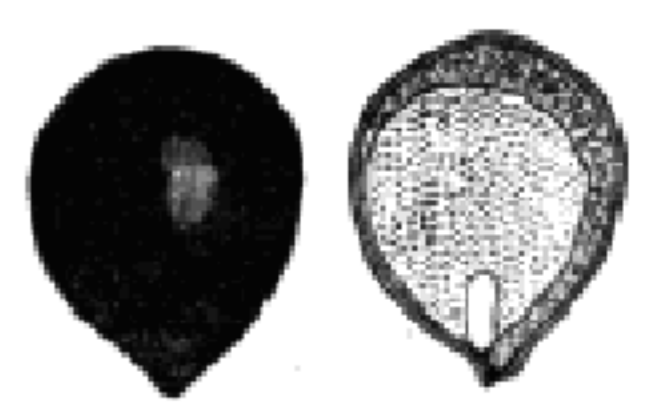

sezione del fiore

androceo e gineceo

frutto (capsula)

seme (intero e in sezione)

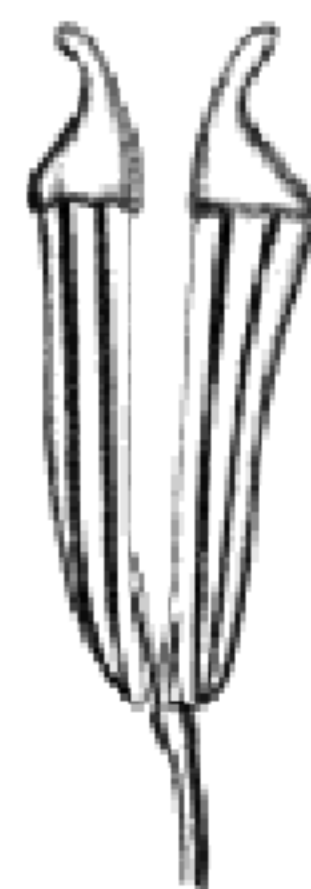

APIACEAE
(ombrellifere) - I

sezione del fiore

ombrellette di frutti

frutto
(diachenio)

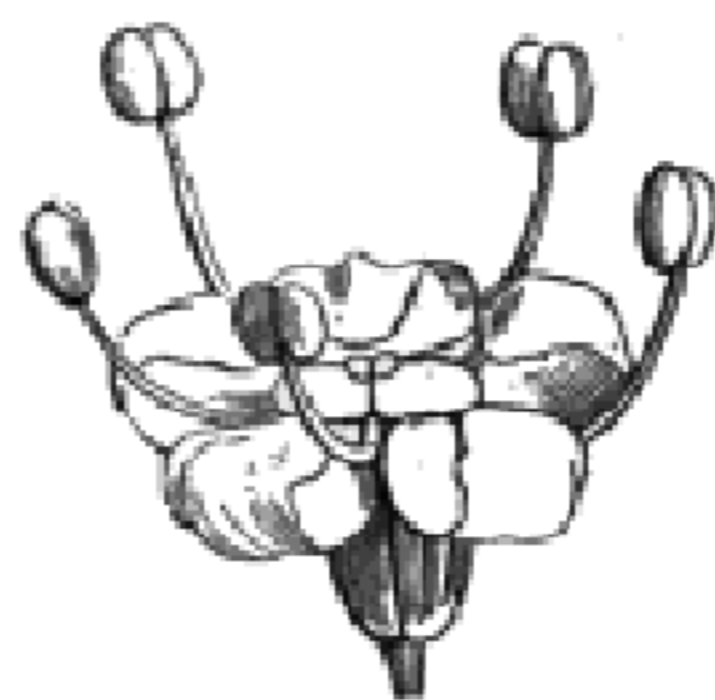

***Annesorrhiza capensis* Cham. & Schlechtd.**

APIACEAE
(ombrellifere) - II

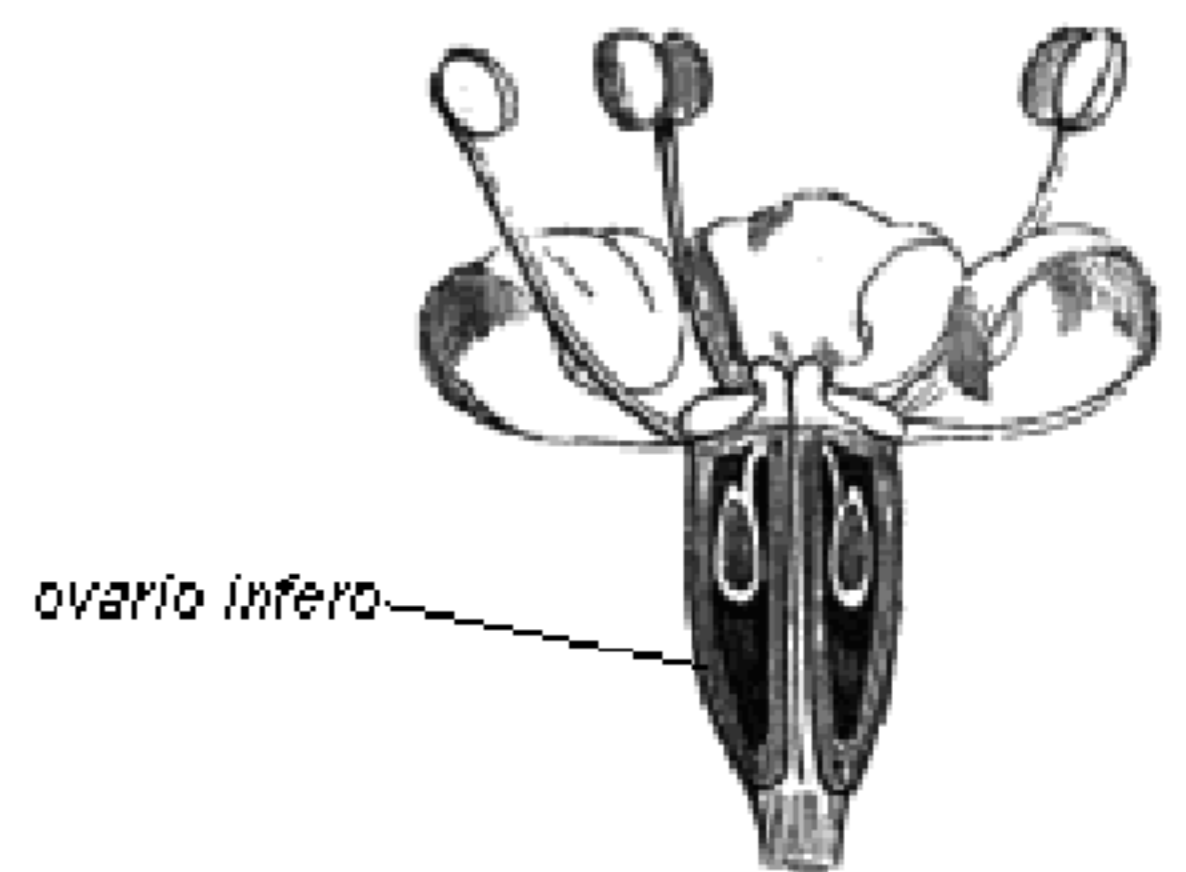

Foeniculum vulgare Miller
(finocchio)

ombrella composta

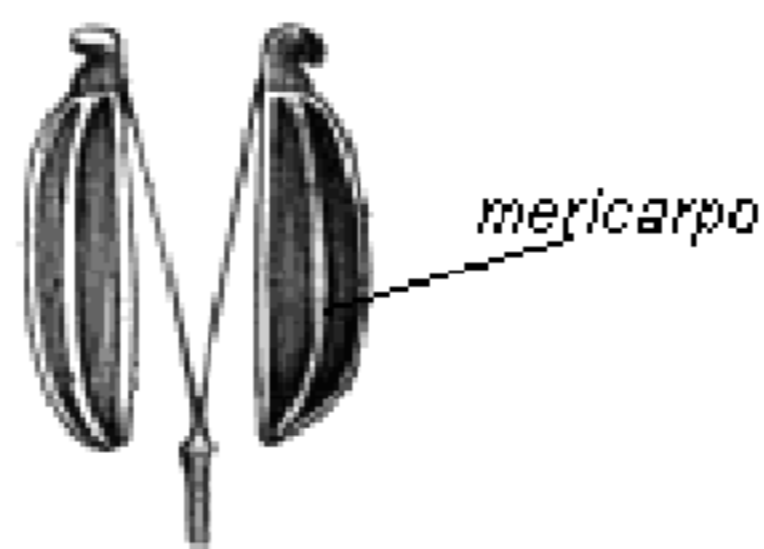

fiore

ovario infero

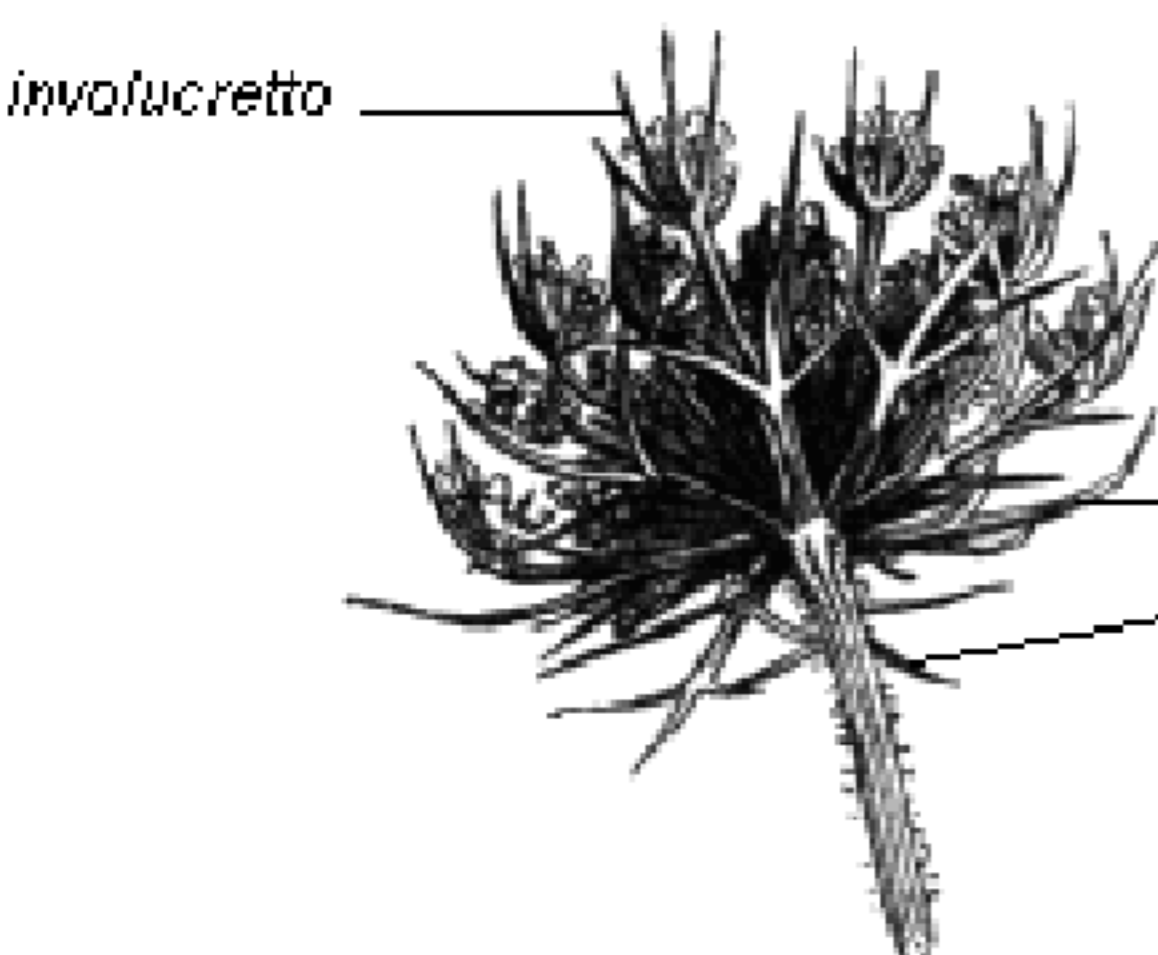

sezione del fiore

frutto
(diachenio)

sezione del frutto

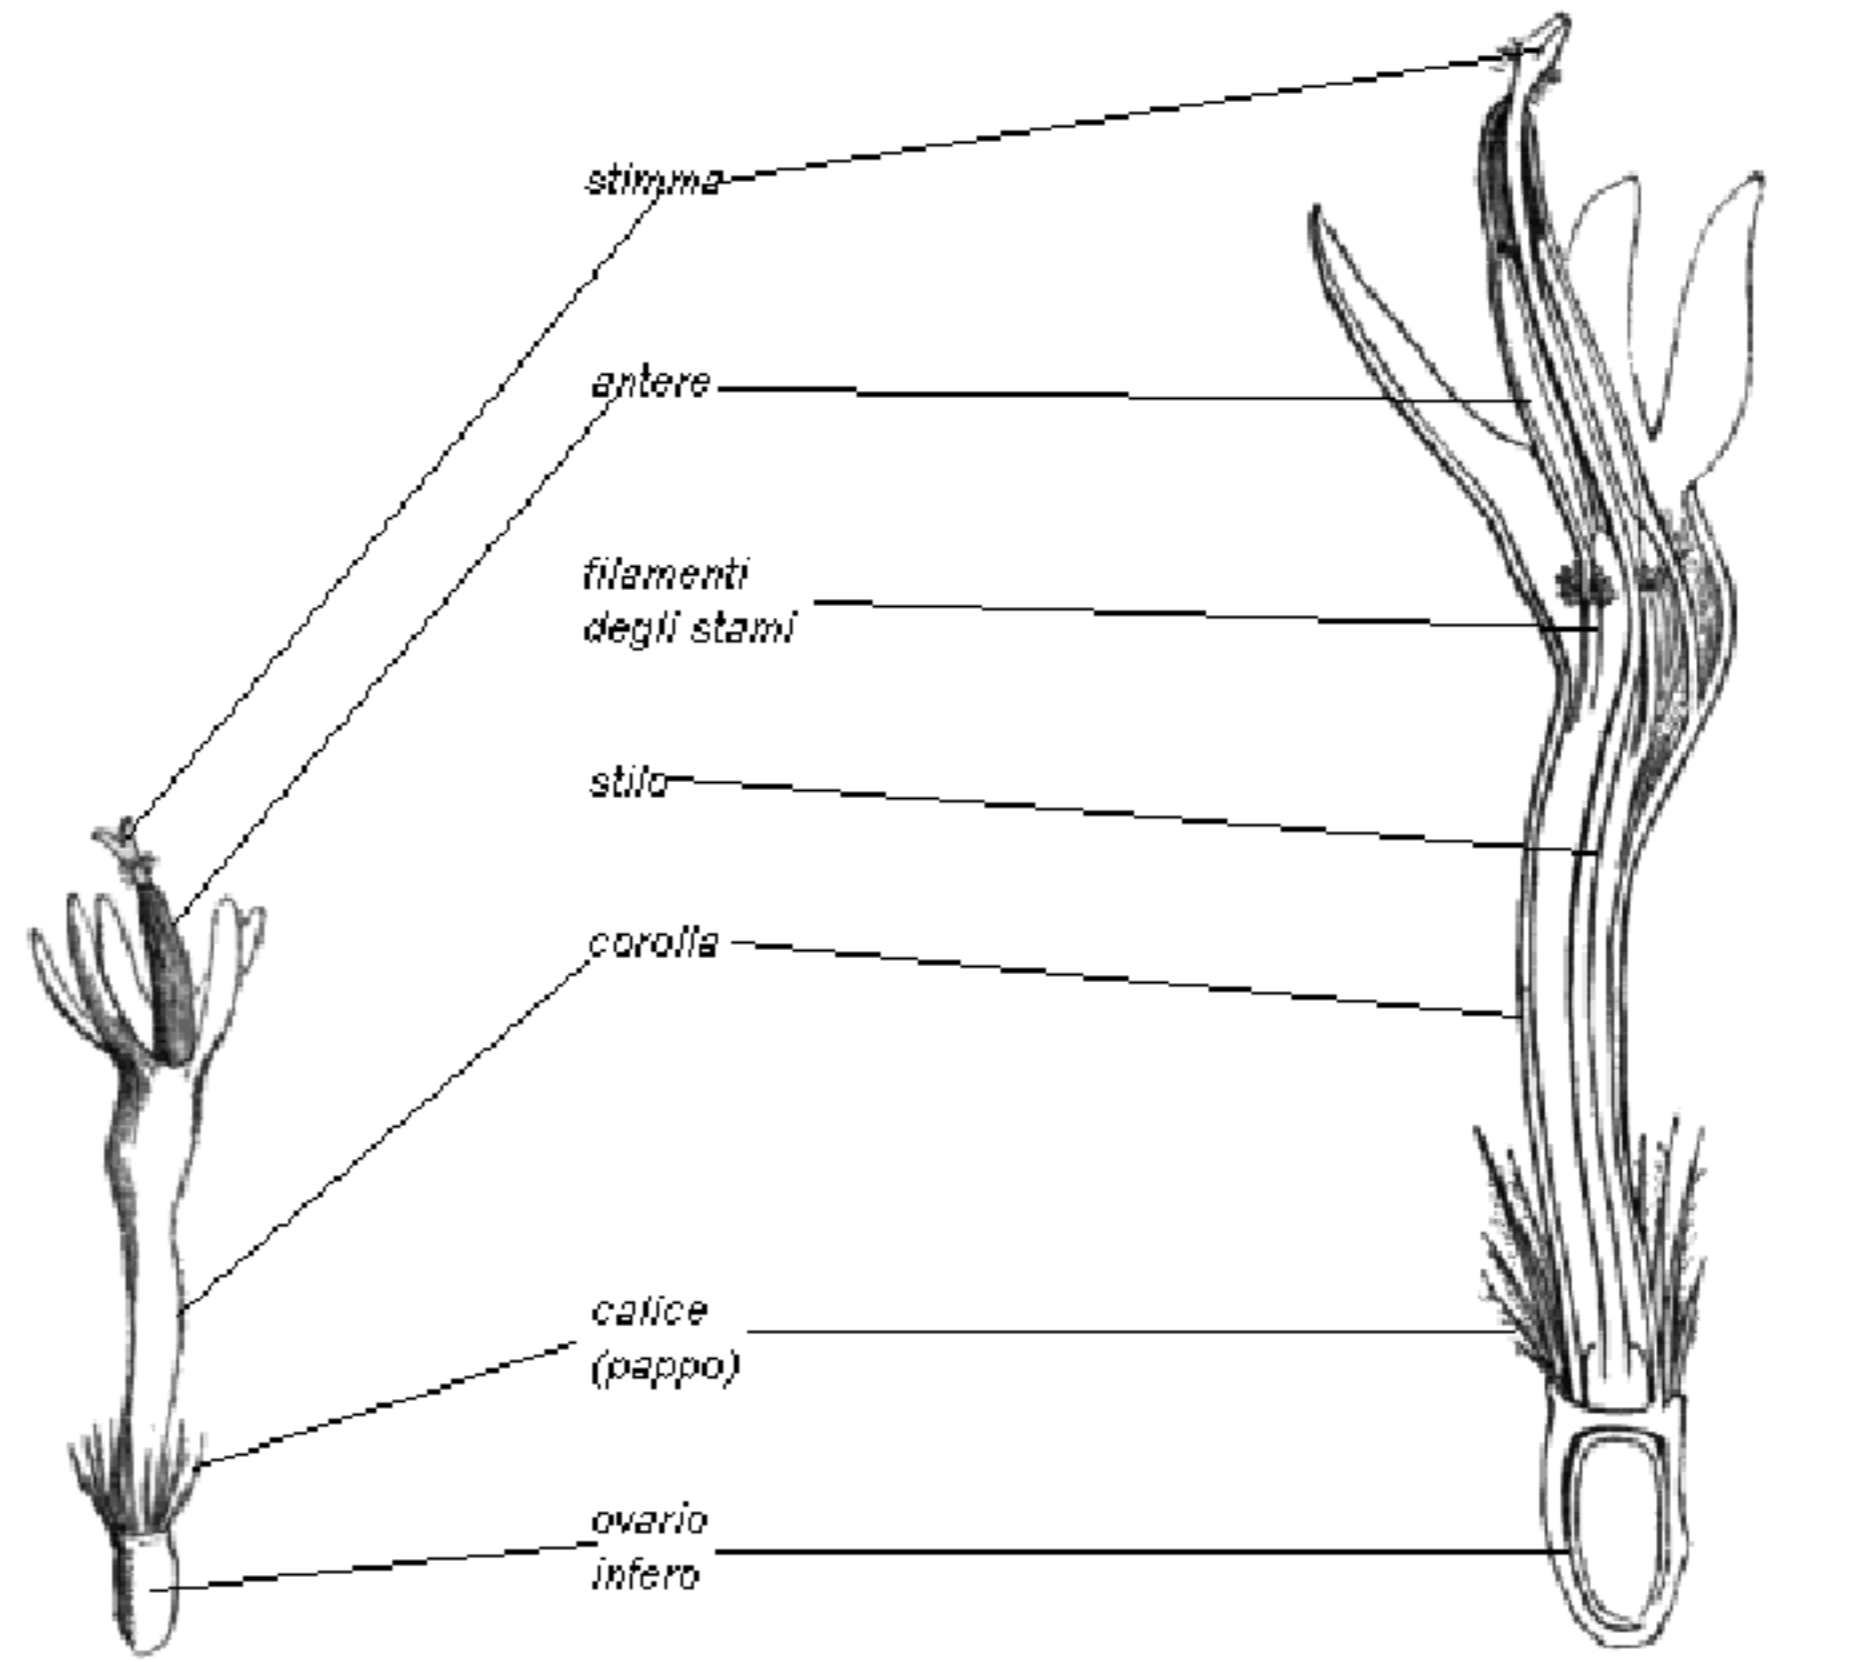

Daucus carota L.
(carota)

ombrella composta

ASTERACEAE
(composite) - I
Asteroideae

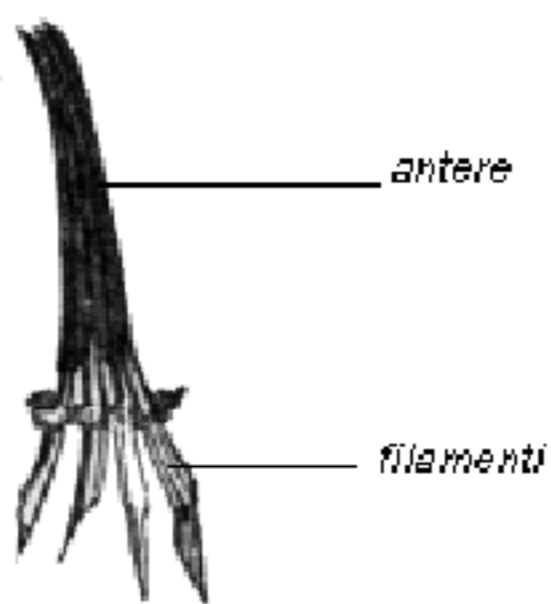

Centaurea cyanus L.
(fiordaliso)

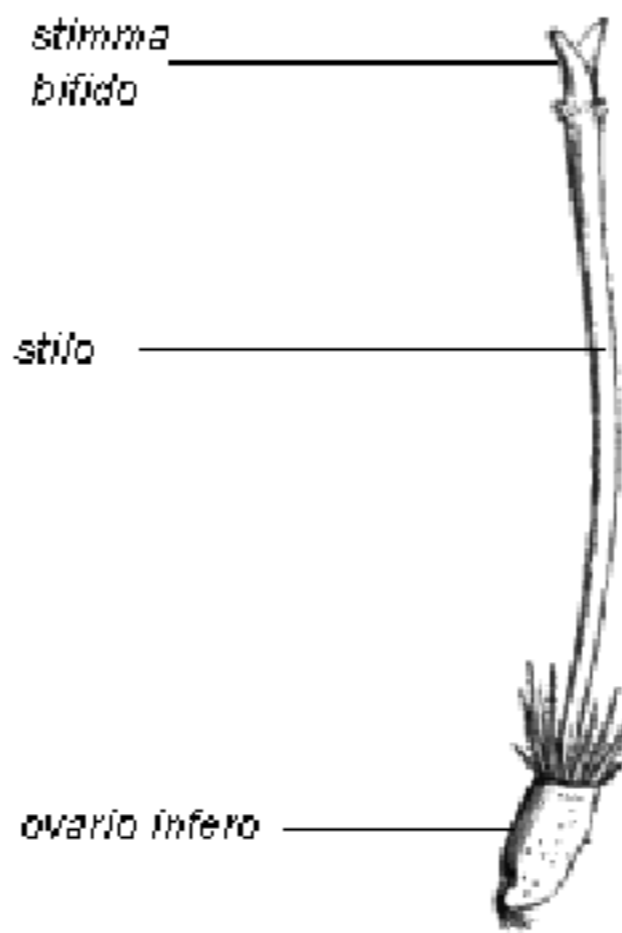

fiore tubuloso del disco
(ermafrodita)

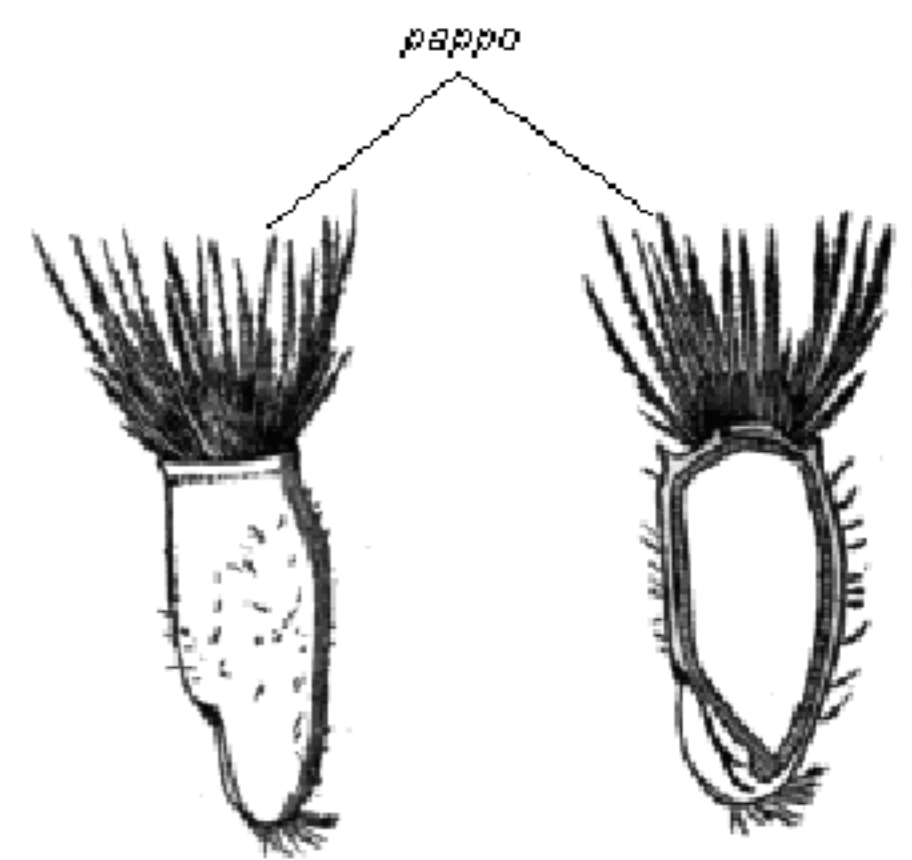

sezione di fiore
tubuloso del disco

androceo

fiore del disco:
gineceo

frutto
(achenio)

sezione di achenio

fiore tubuloso
del raggio
(sterile)

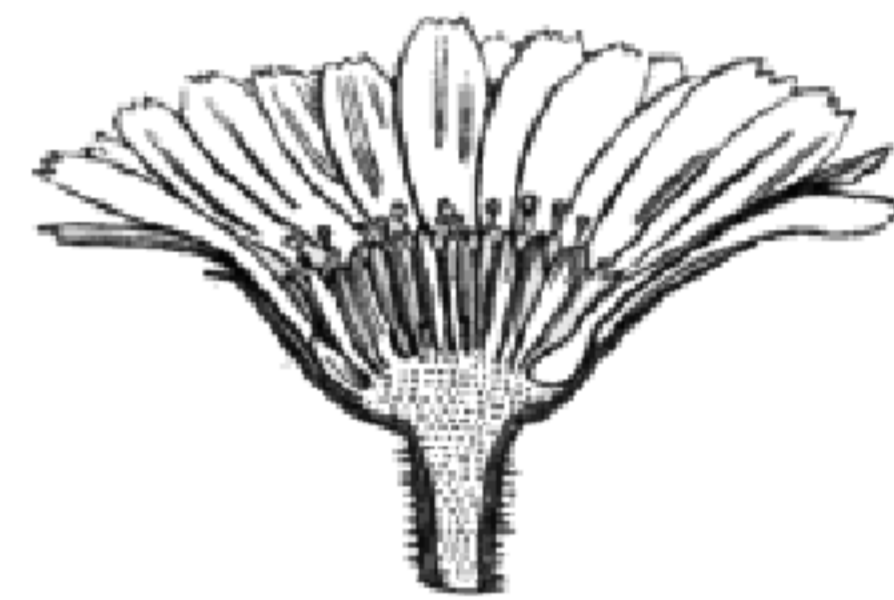

ASTERACEAE
(composite) - II
Asteroideae

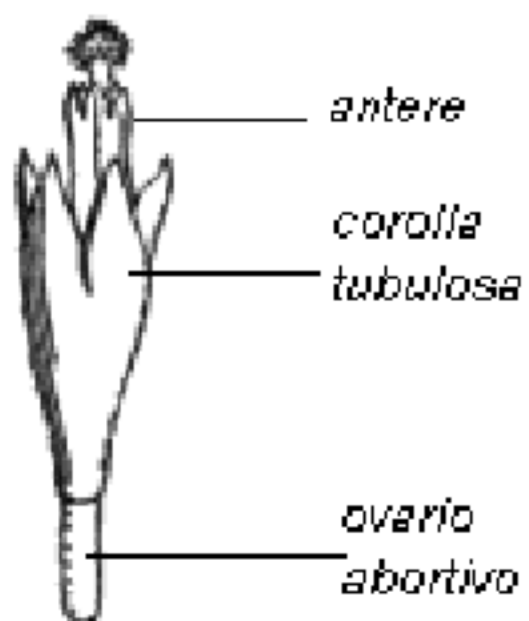

Calendula officinalis L.
 (calendula)

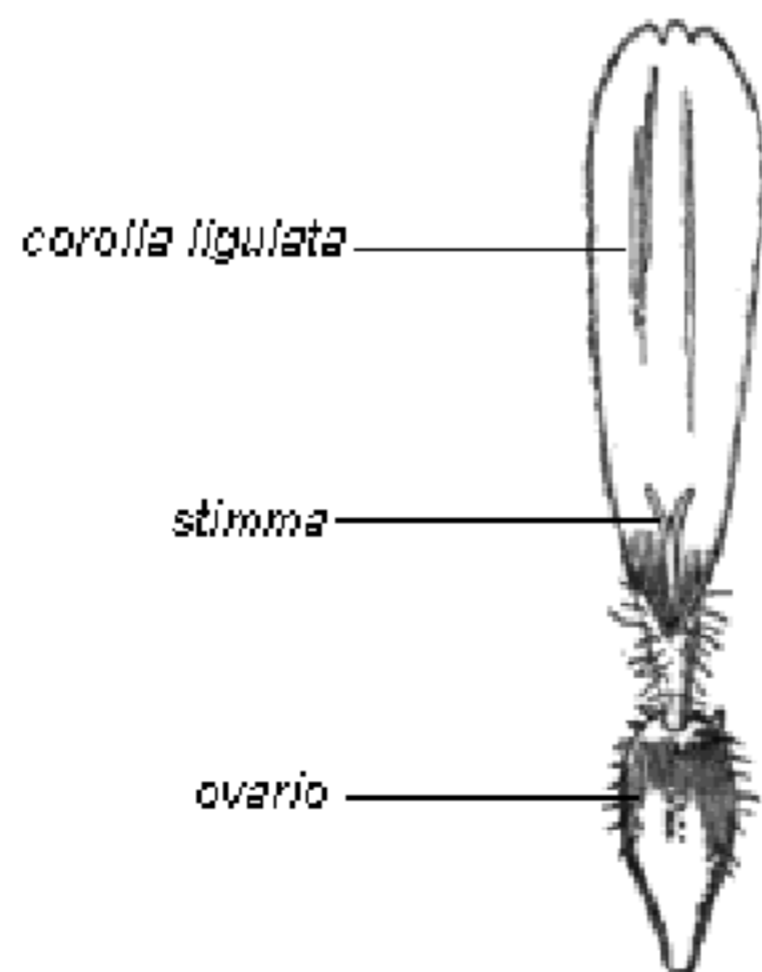

infiorescenza
 (capolino)

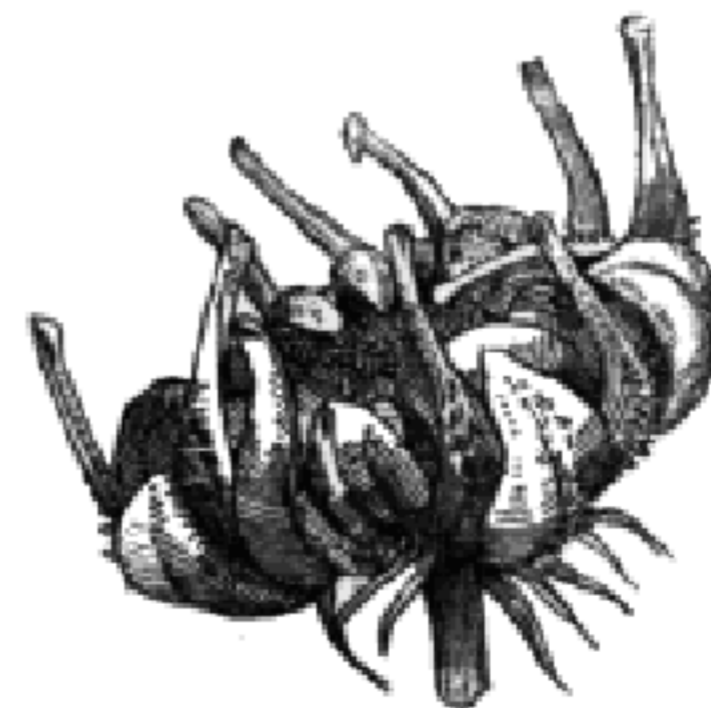

sezione del capolino
 con fiori del disco maschili
 e fiori del raggio femminili

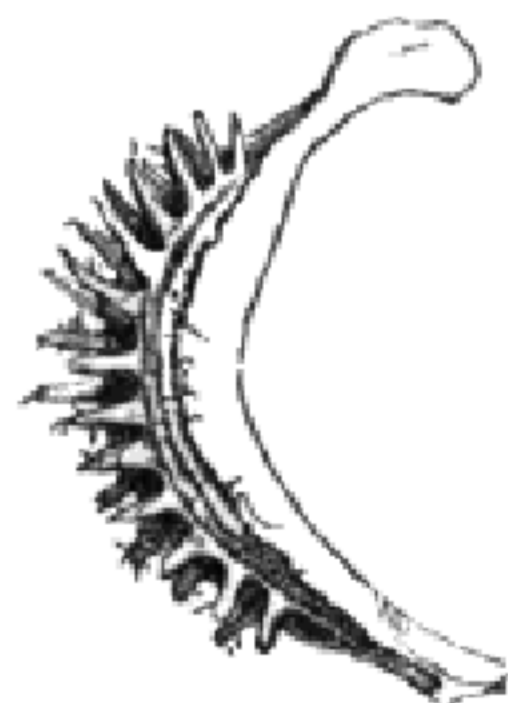

fiore maschile
 del disco

fiore femminile
 del raggio

capolino con frutti

frutto
 (achenio)

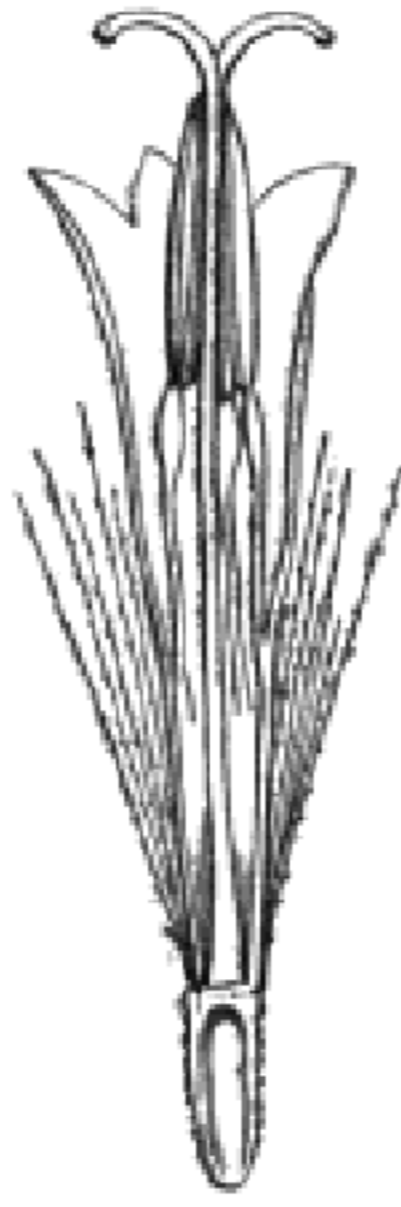

ASTERACEAE
 (composite) - III
 Asteroideae

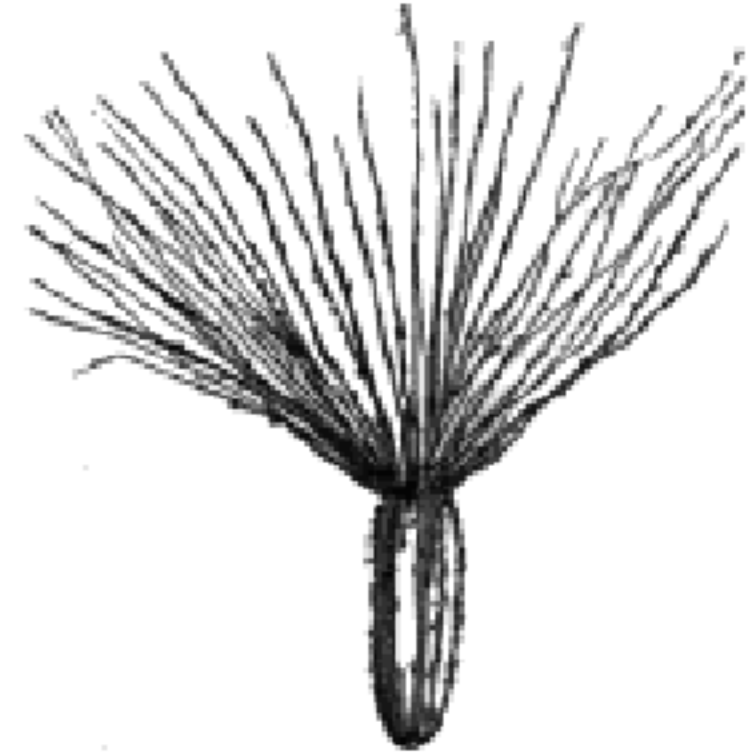

Senecio jacobaea L.

fiore tubuloso
del disco
(ermafrodito)

fiore ligulato
del raggio
(femminile)

achenio
con pappo

fiore del disco:
gineceo

Achillea millefolium L.

corimbo di
capolini

capolino

fiore tubuloso
del disco

fiore ligulato
del raggio

fiore ligulato del
raggio
femminile

Chrysanthemum sp.

fiore tubuloso del
disco
ermafrodito

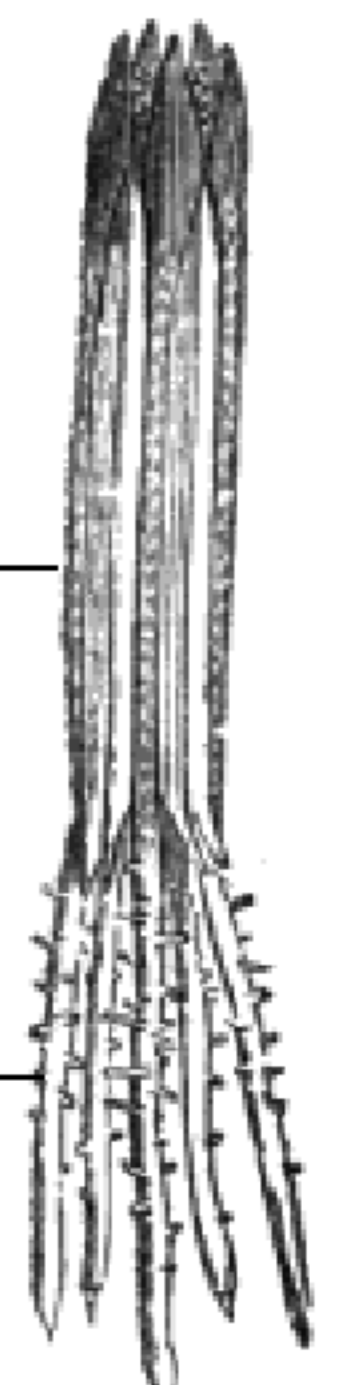

fiore tubuloso

Carduus sp.
(cardo)

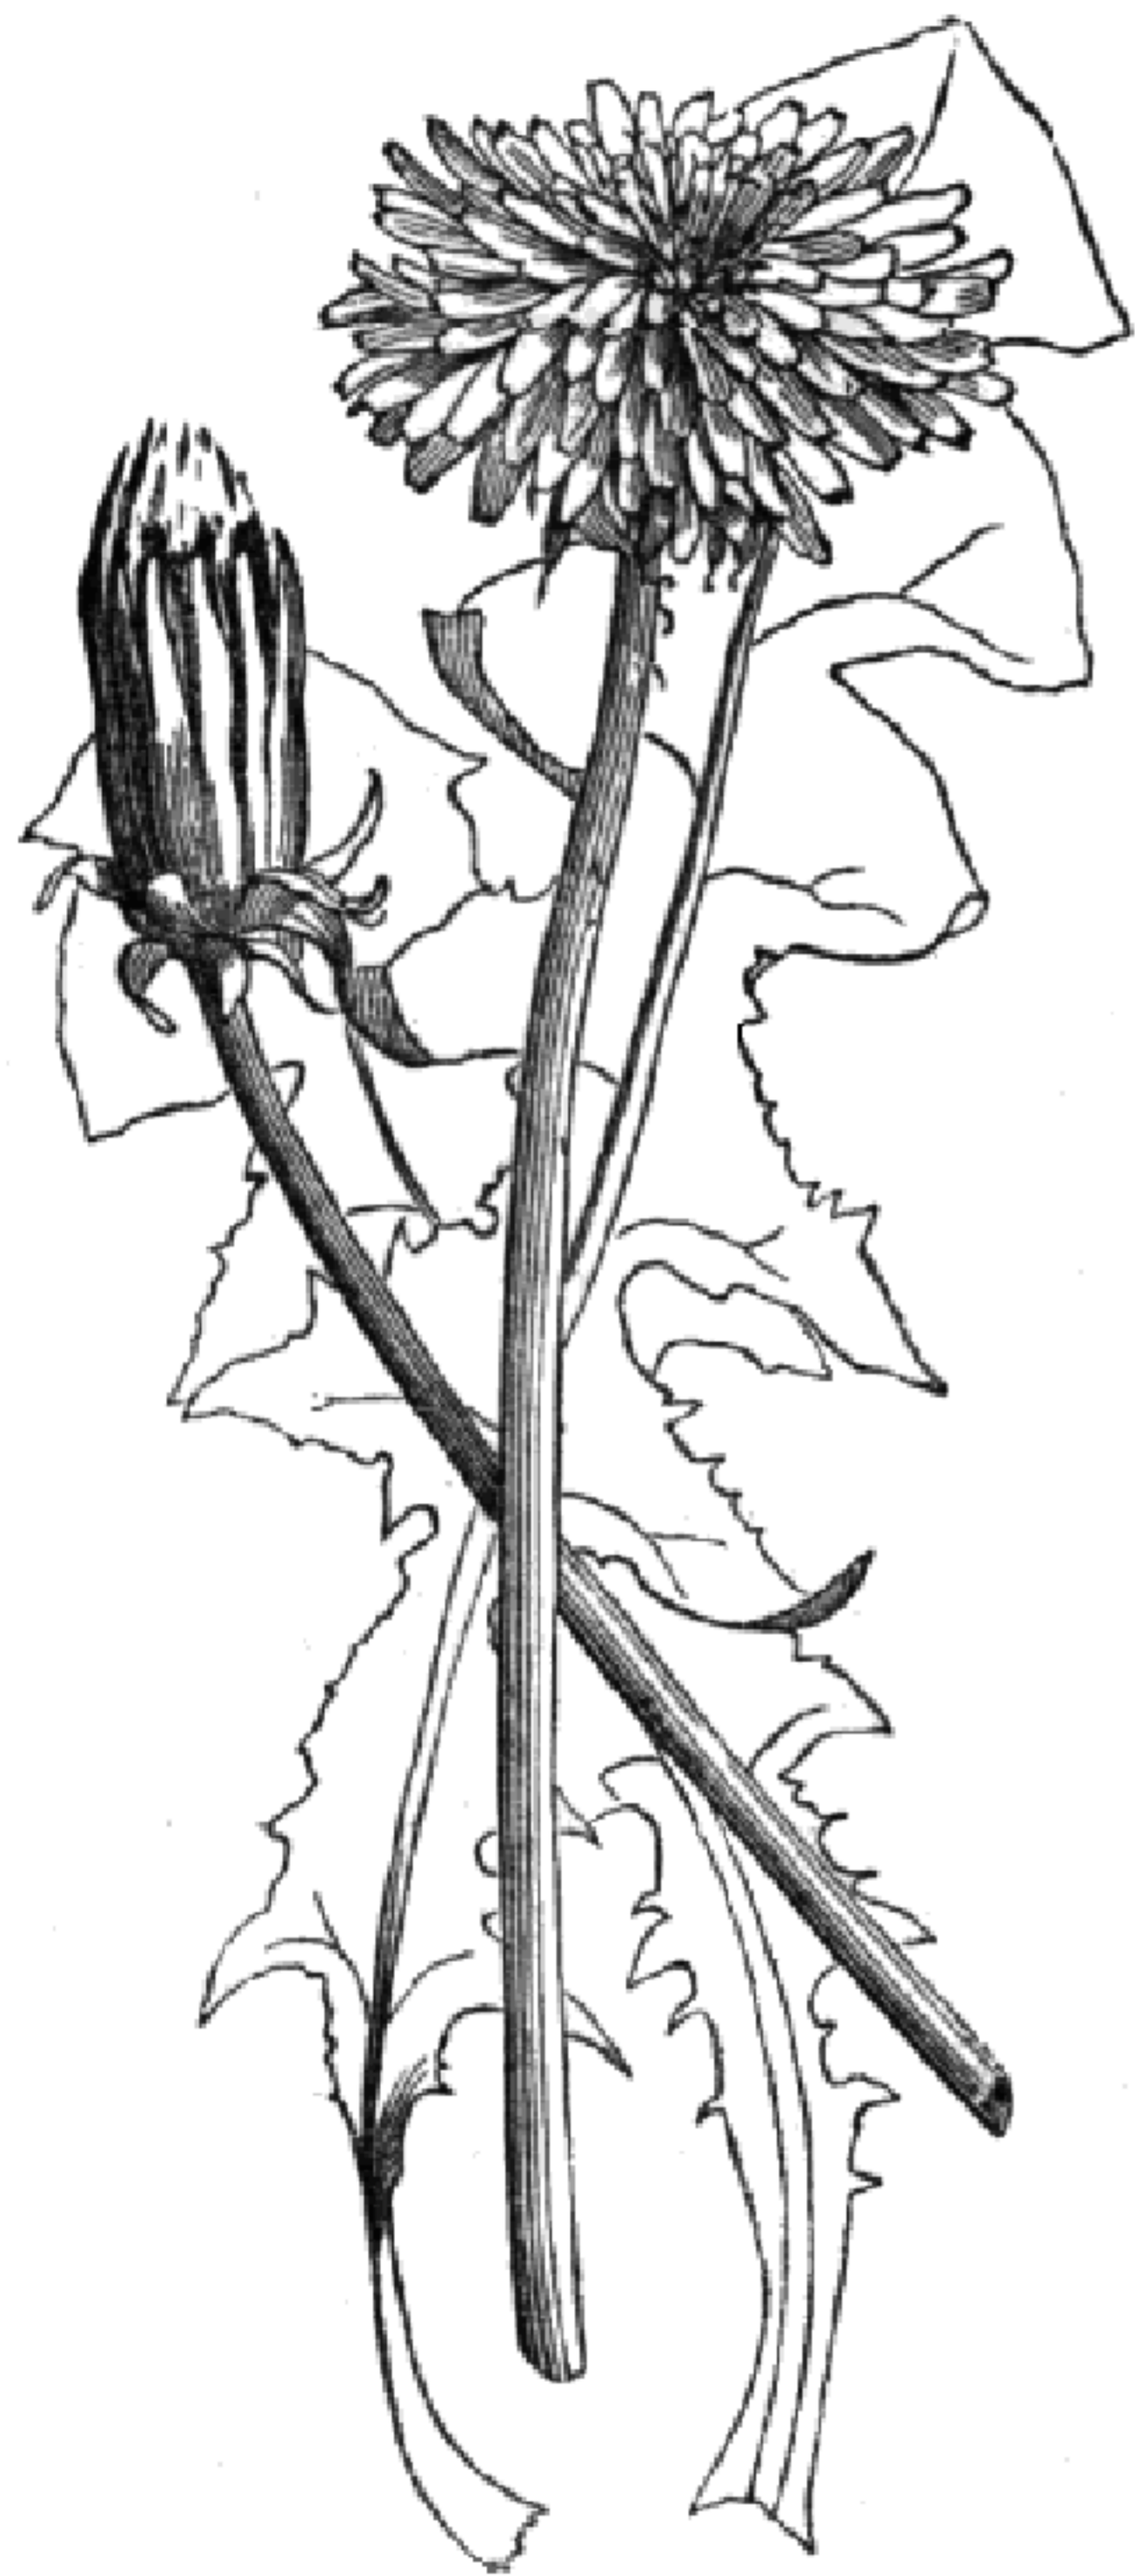

antere

filamenti

androceo

ASTERACEAE
(composite) - IV
Cichorioideae

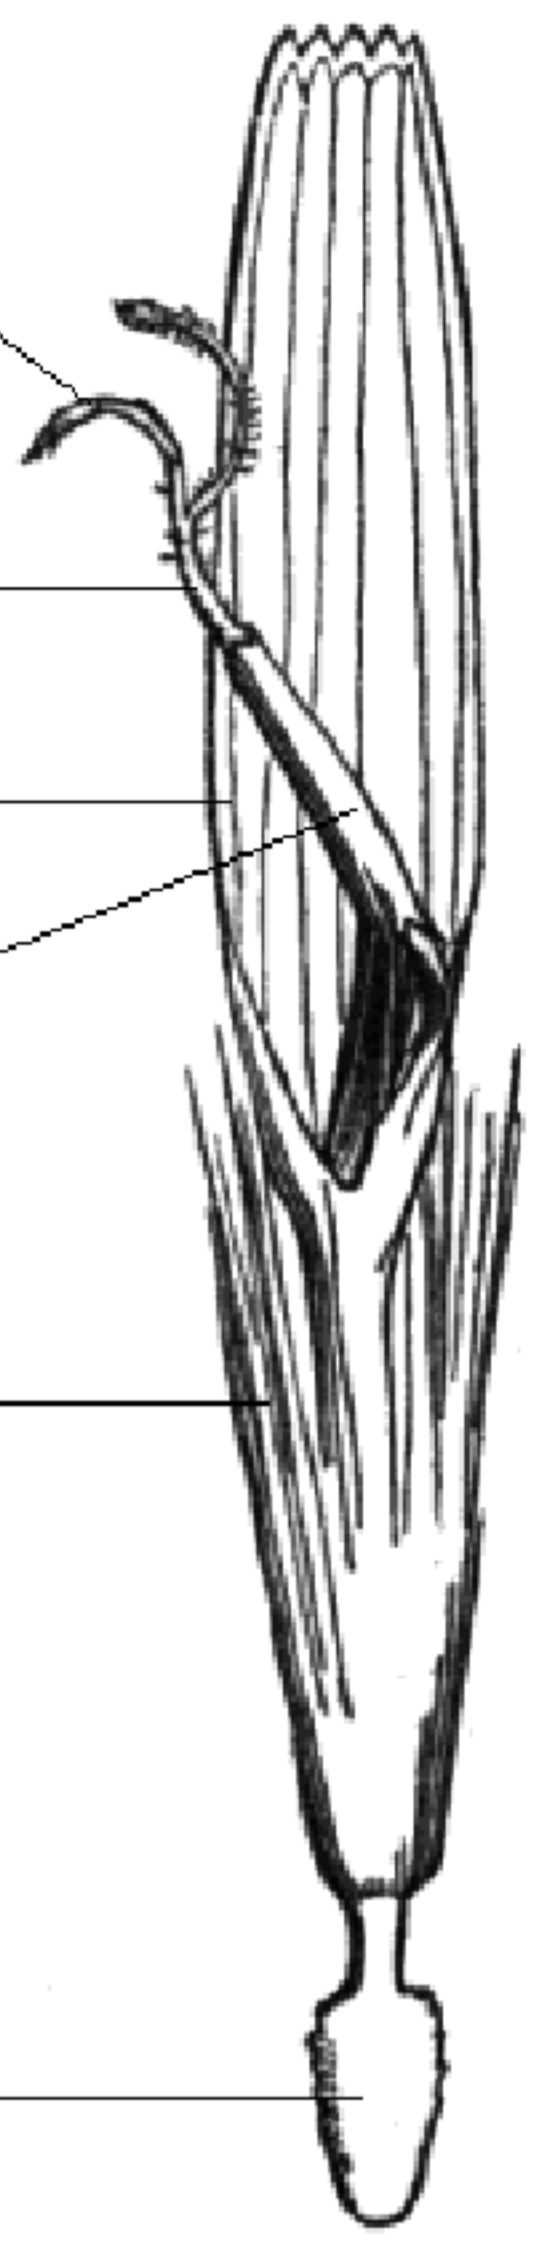

Taraxacum officinale Weber
(tarassaco, soffione)

brattee
dell'involucro

infiorescenza
immatura

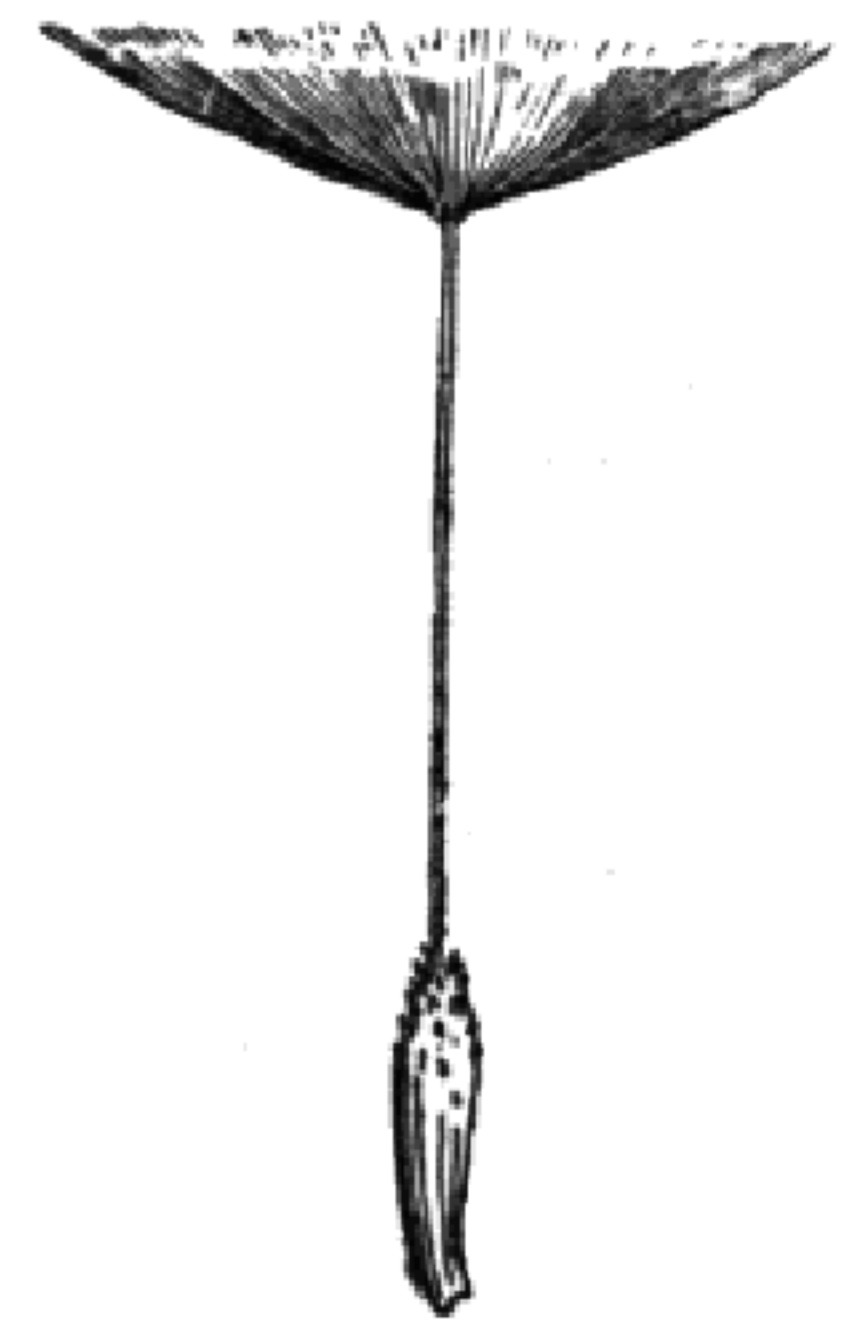

stigma
stilo
corolla ligulata
antere saldate
intorno allo stilo
calice (pappo)
ovario infero

fiore ligulato
ermafrodita

ricettacolo
infiorescenziale
con acheni

achenio con pappo

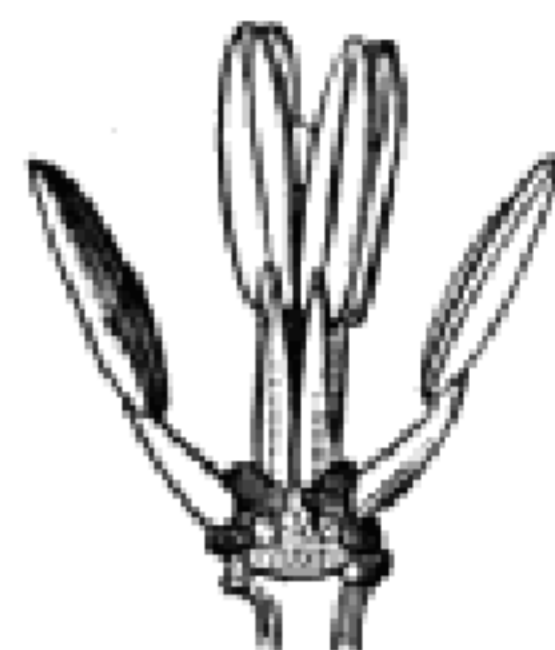

BRASSICACEAE
(crucifere) - I

Cheiranthus cheiri
(violacciocca gialla)

Fiore (sezione)

Androceo
(6 stami tetradinami)

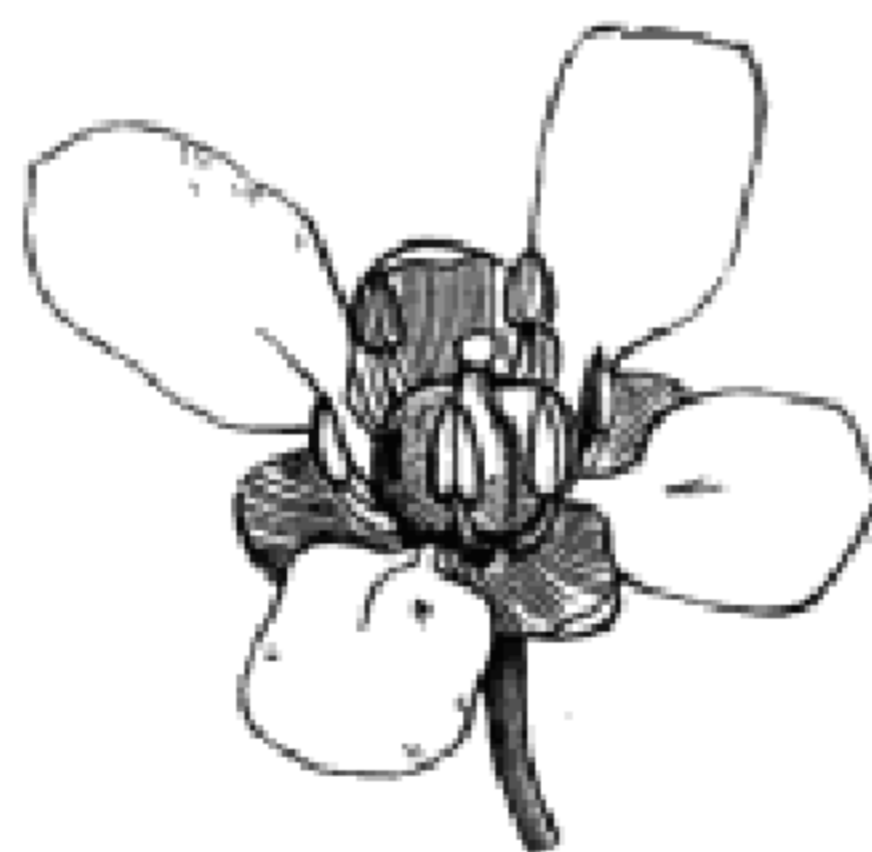

gineceo

Frutto (siliqua)

Cochlearia officinalis

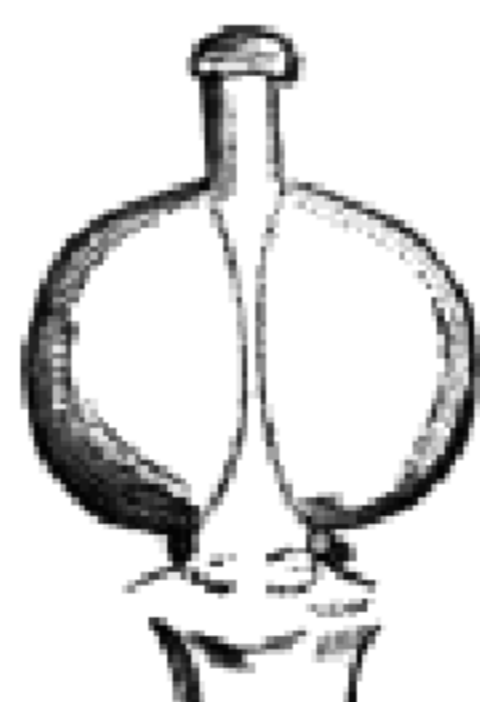

fiore

fiore
(sezione)

androceo
e gineceo

gineceo

frutto
(siliquetta)

seme

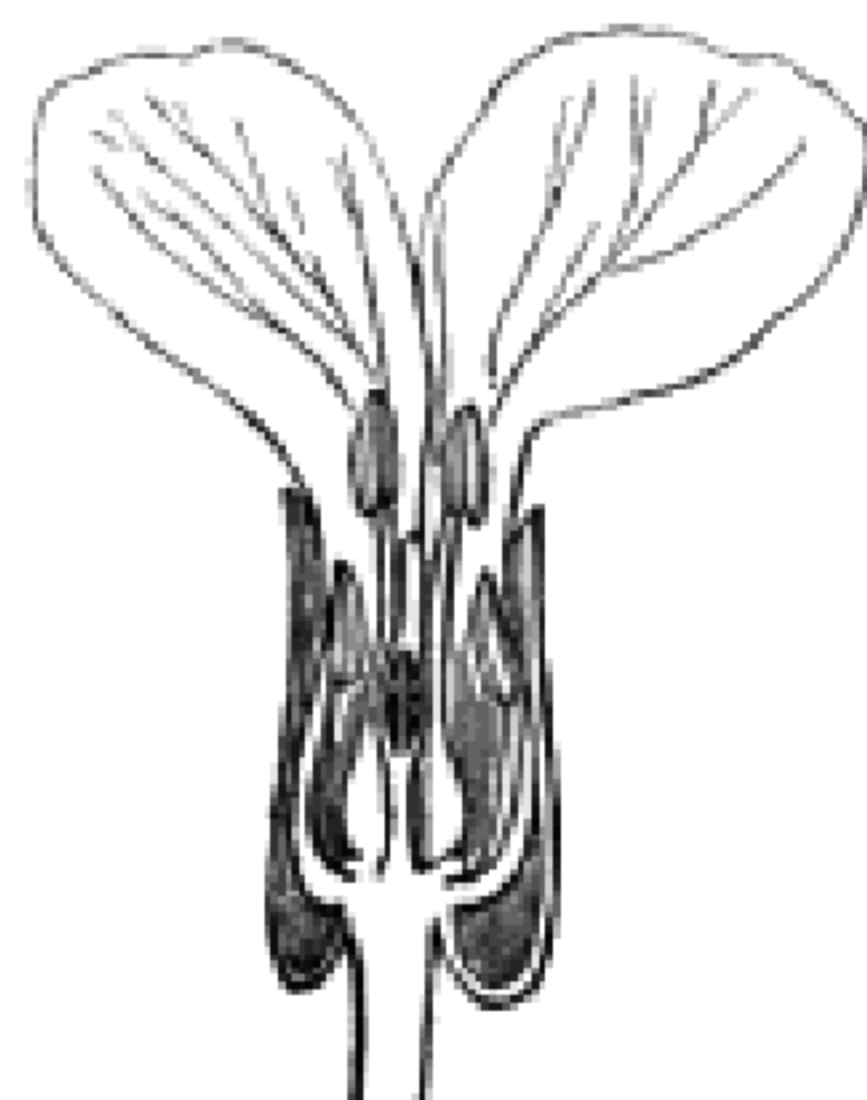

BRASSICACEAE
(crucifere) - II

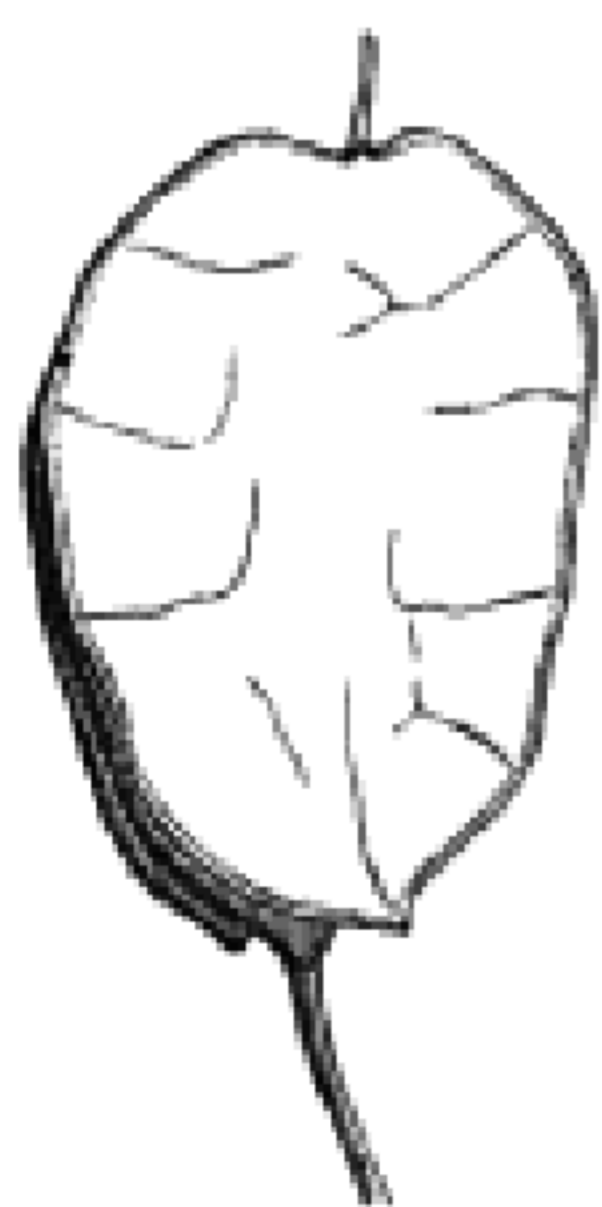

Lunaria annua
(lunaria, monete del papa)

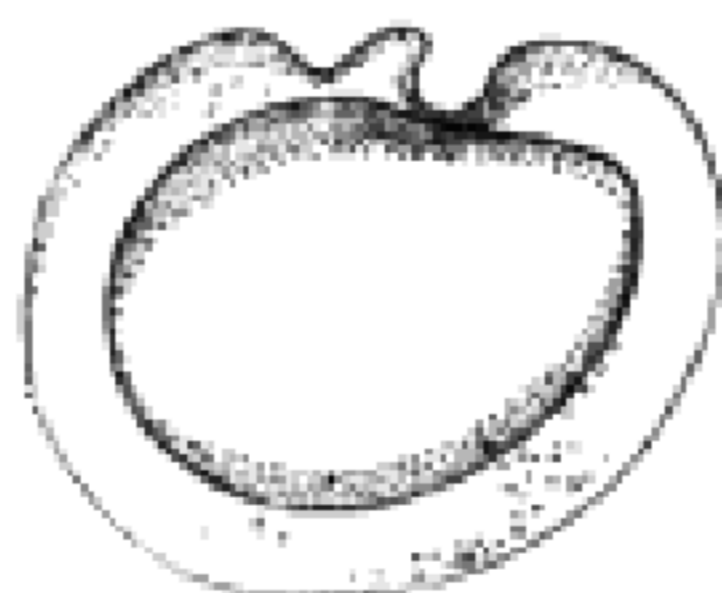

fiore

fiore
(sezione)

frutto
(siliquetta)

seme

seme
(sezione)

CASAI PINIACFAP

Cereus silvestris L.
(fillo di Cactu)

sezioe del fiore

ovario

petalo
(parto interno)

perigonio
(parto interno)

androceo e gineceo
(gli organi sessuali della
fioro)

stilo

frullo
(legume)

seme

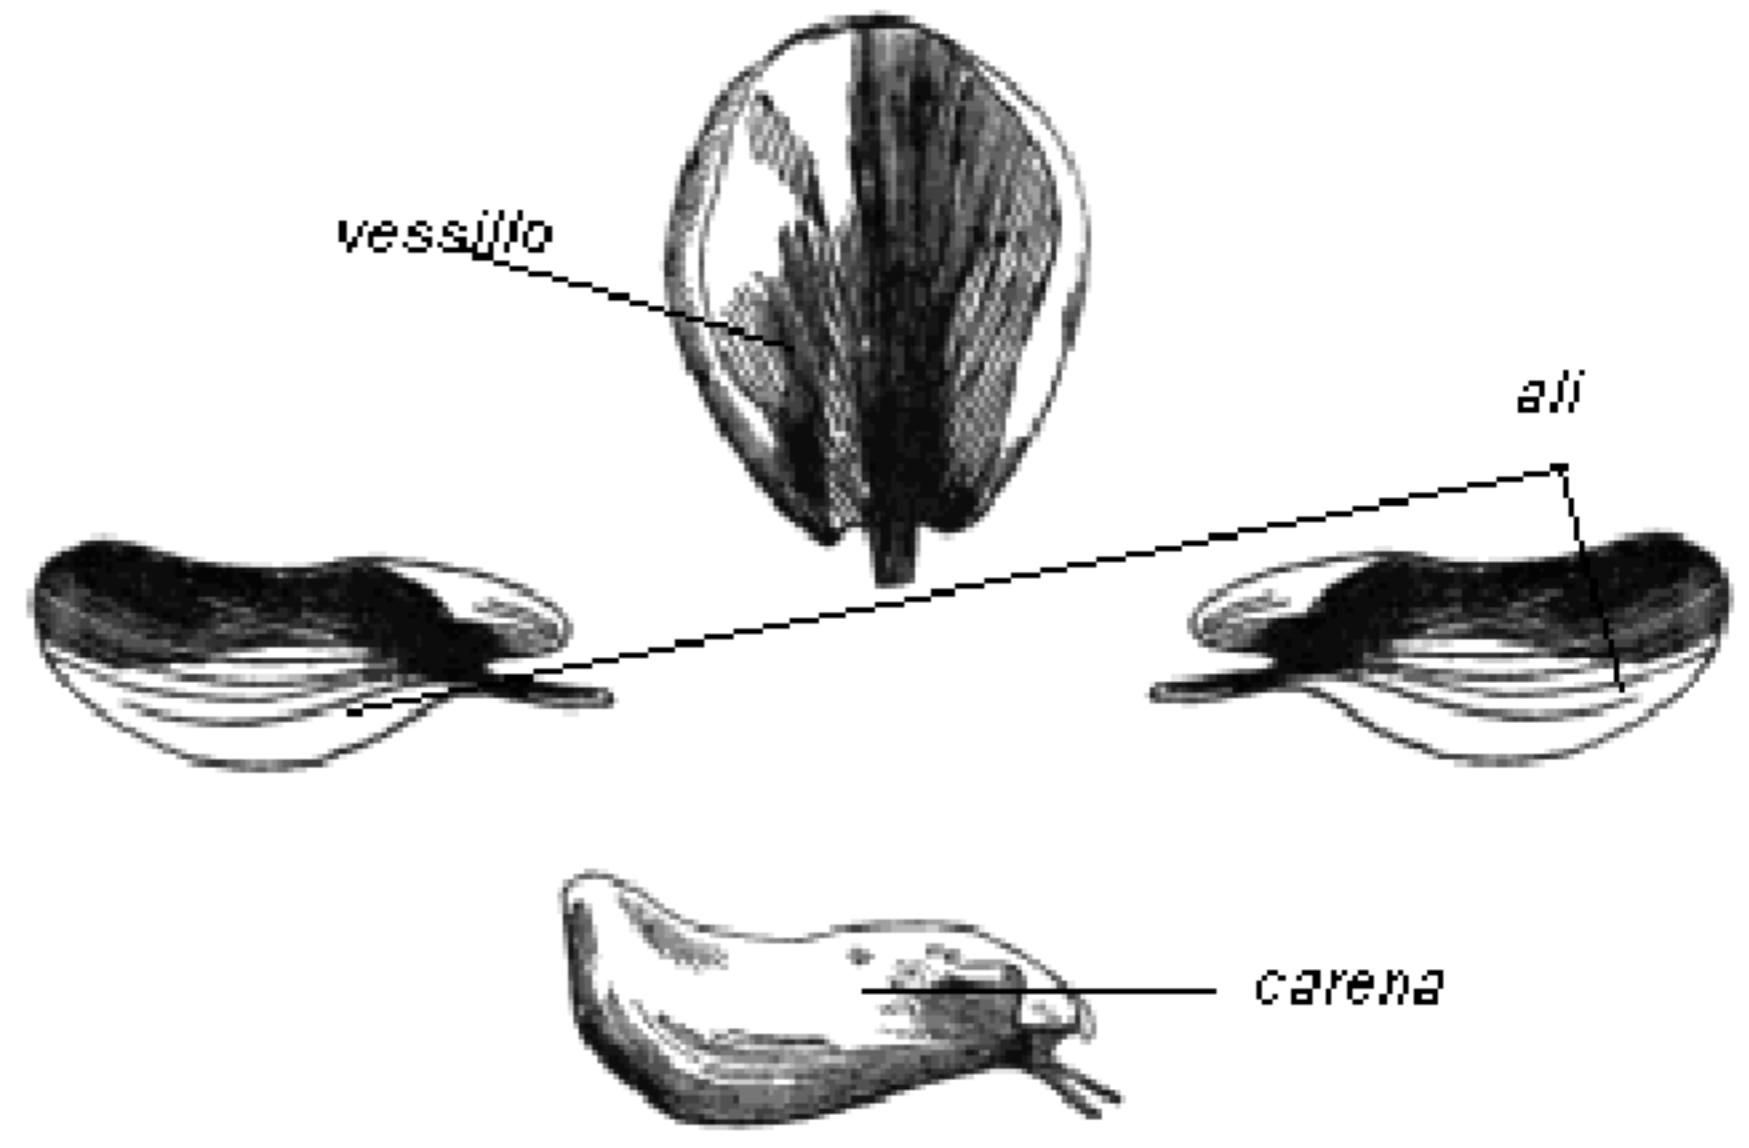

FABACEAE
(leguminose) - I

Cytisus scoparius (L.) Link
(ginestra dei carbonai)

fiore
(sezione)

corolla papilionacea

calice

androceo e gineceo

pistillo

frutto
(legume)

seme

frutti di leguminose

capolino di
Trifolium pratense L.

Medicago sativa L.
(legume)

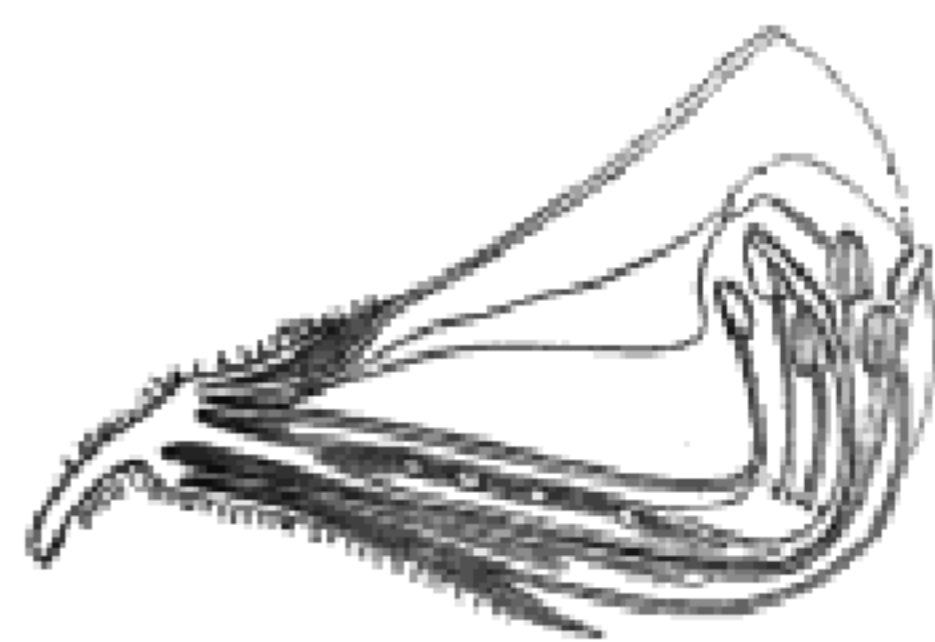

Onobrychis viciifolia Scop.
(lomento)

FABACEAE

(leguminose) - II

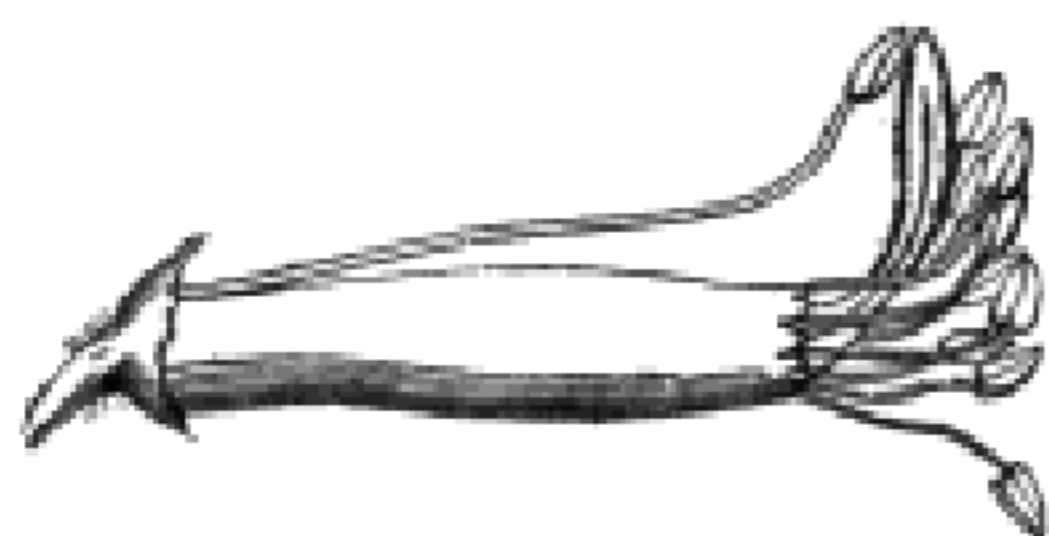

Lathyrus odoratus L.
(pisello odoroso)

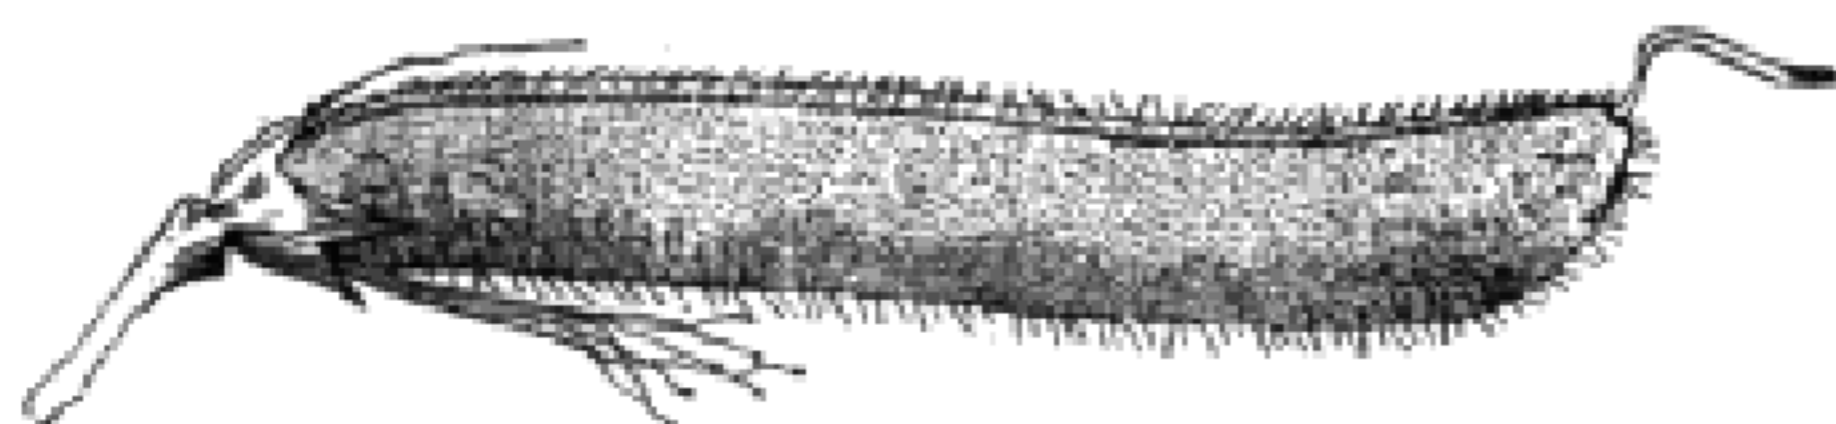

fiore
(sezione)

calice

fiore privato del perianzio
(gineeo avvolto
dall'androceo 9+1)

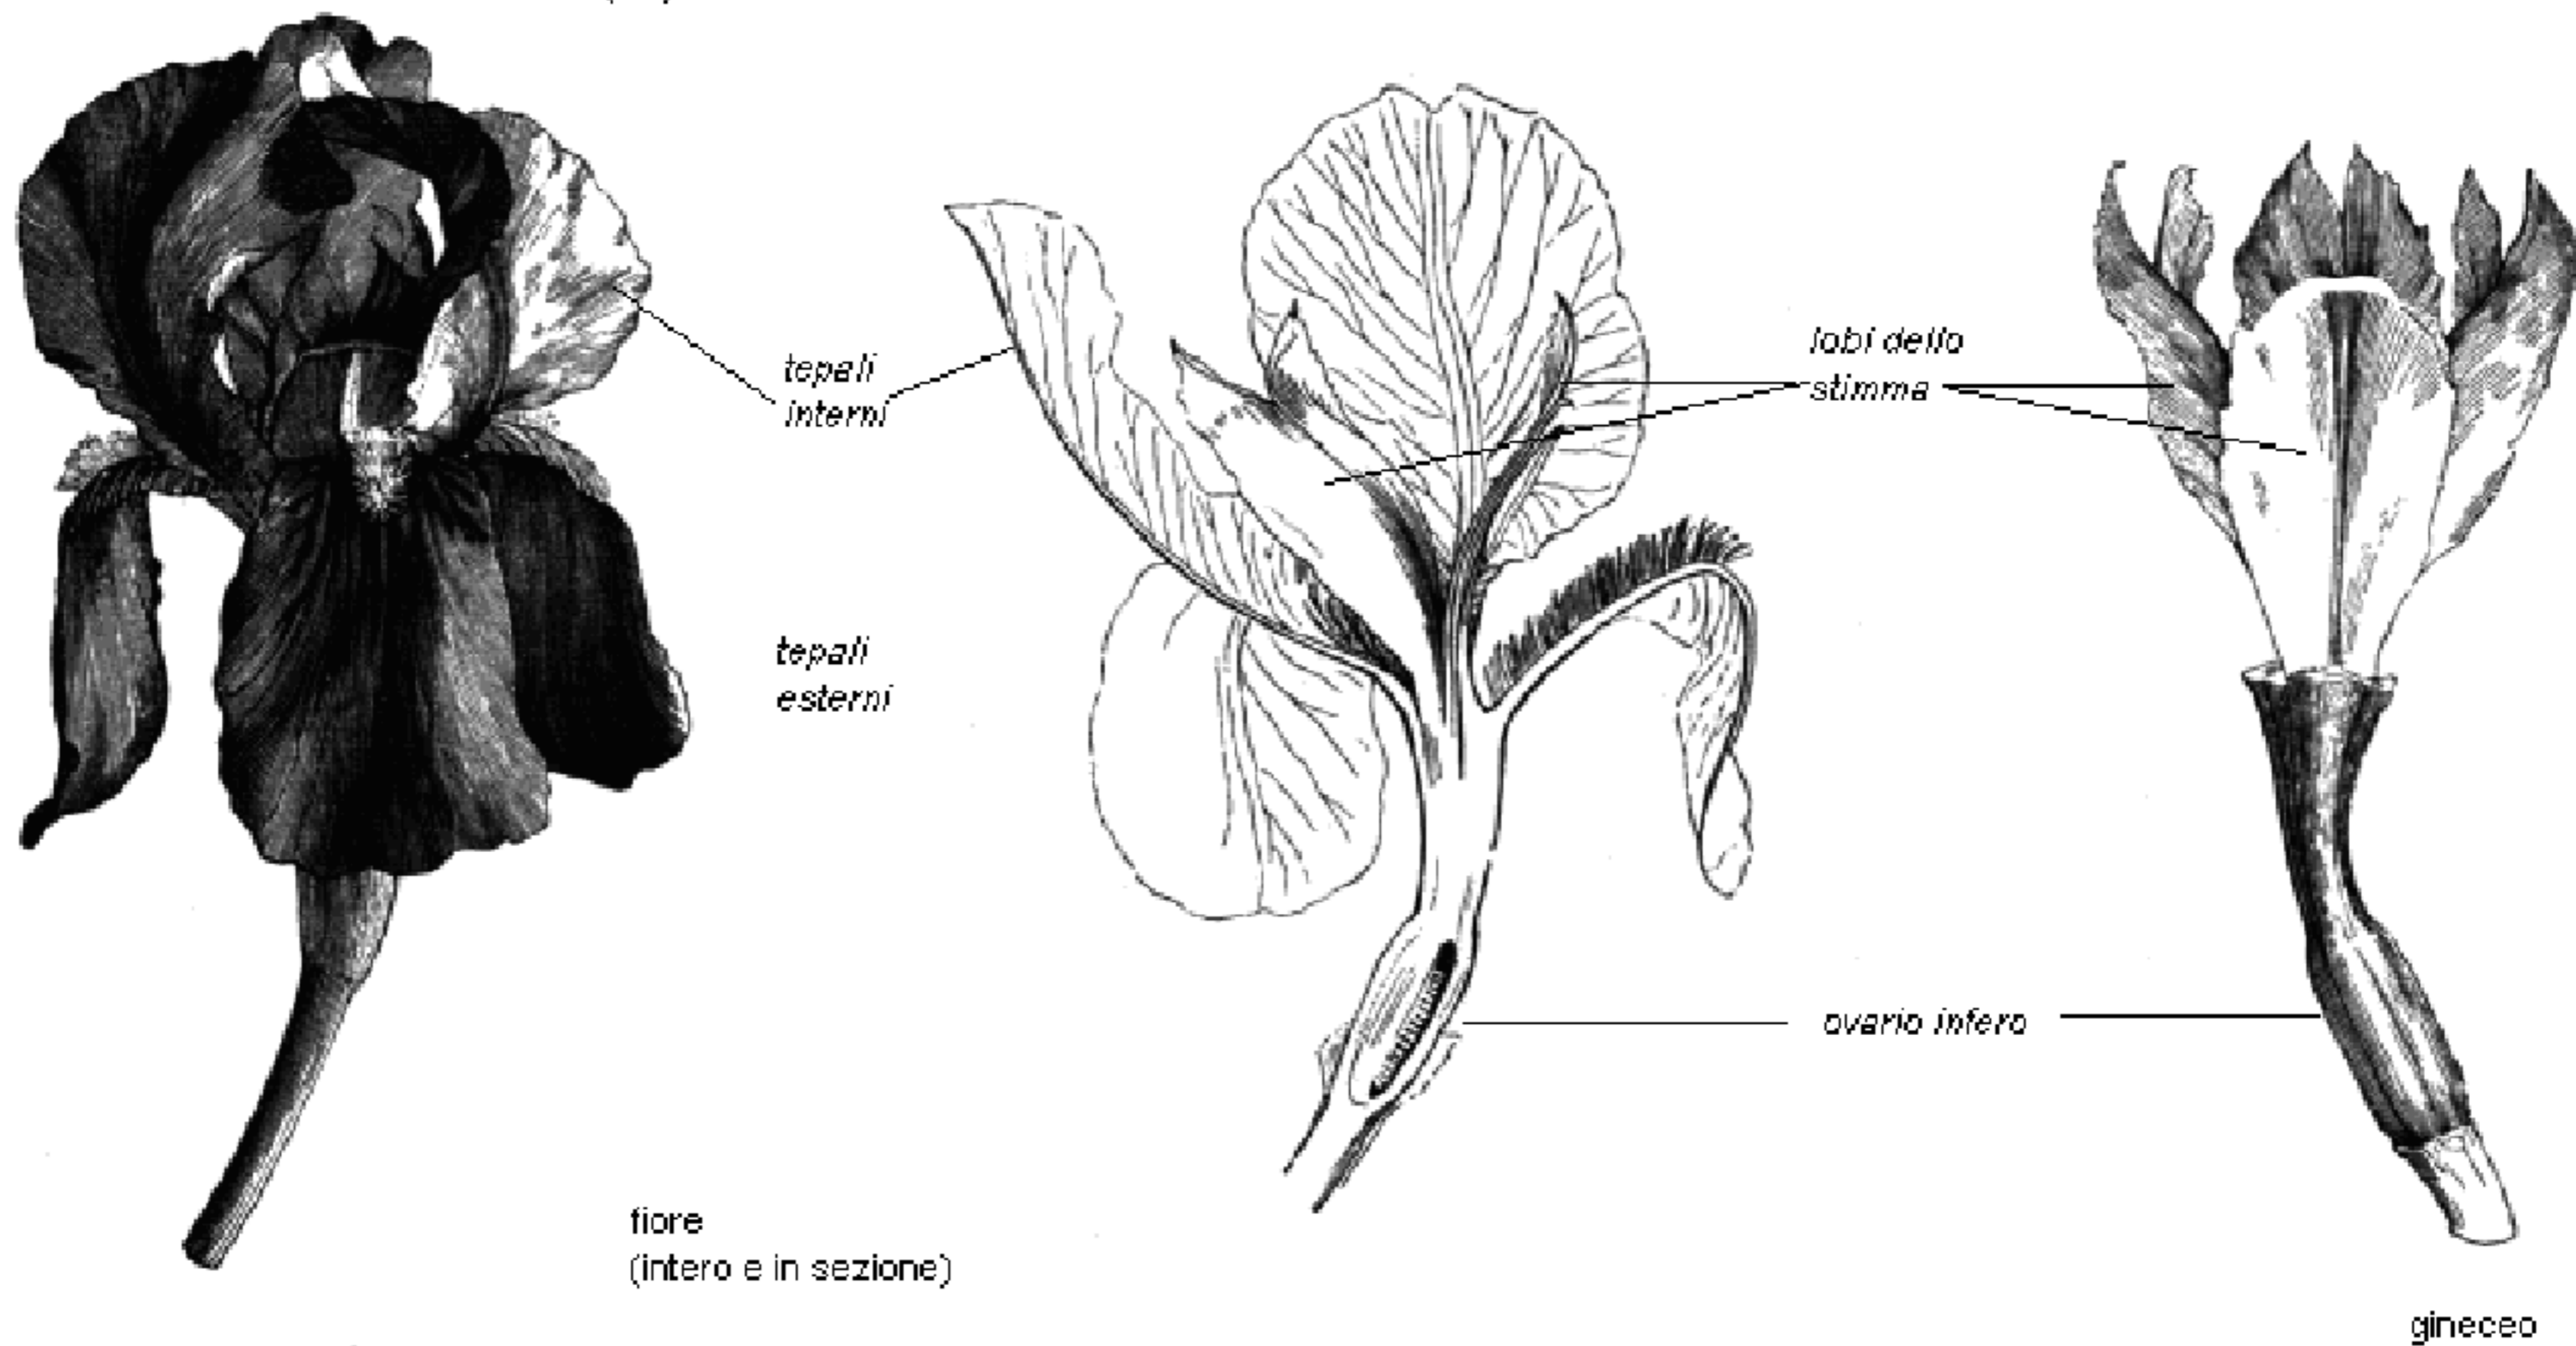

frutto
(legume)

sezione di una porzione
di frutto con seme

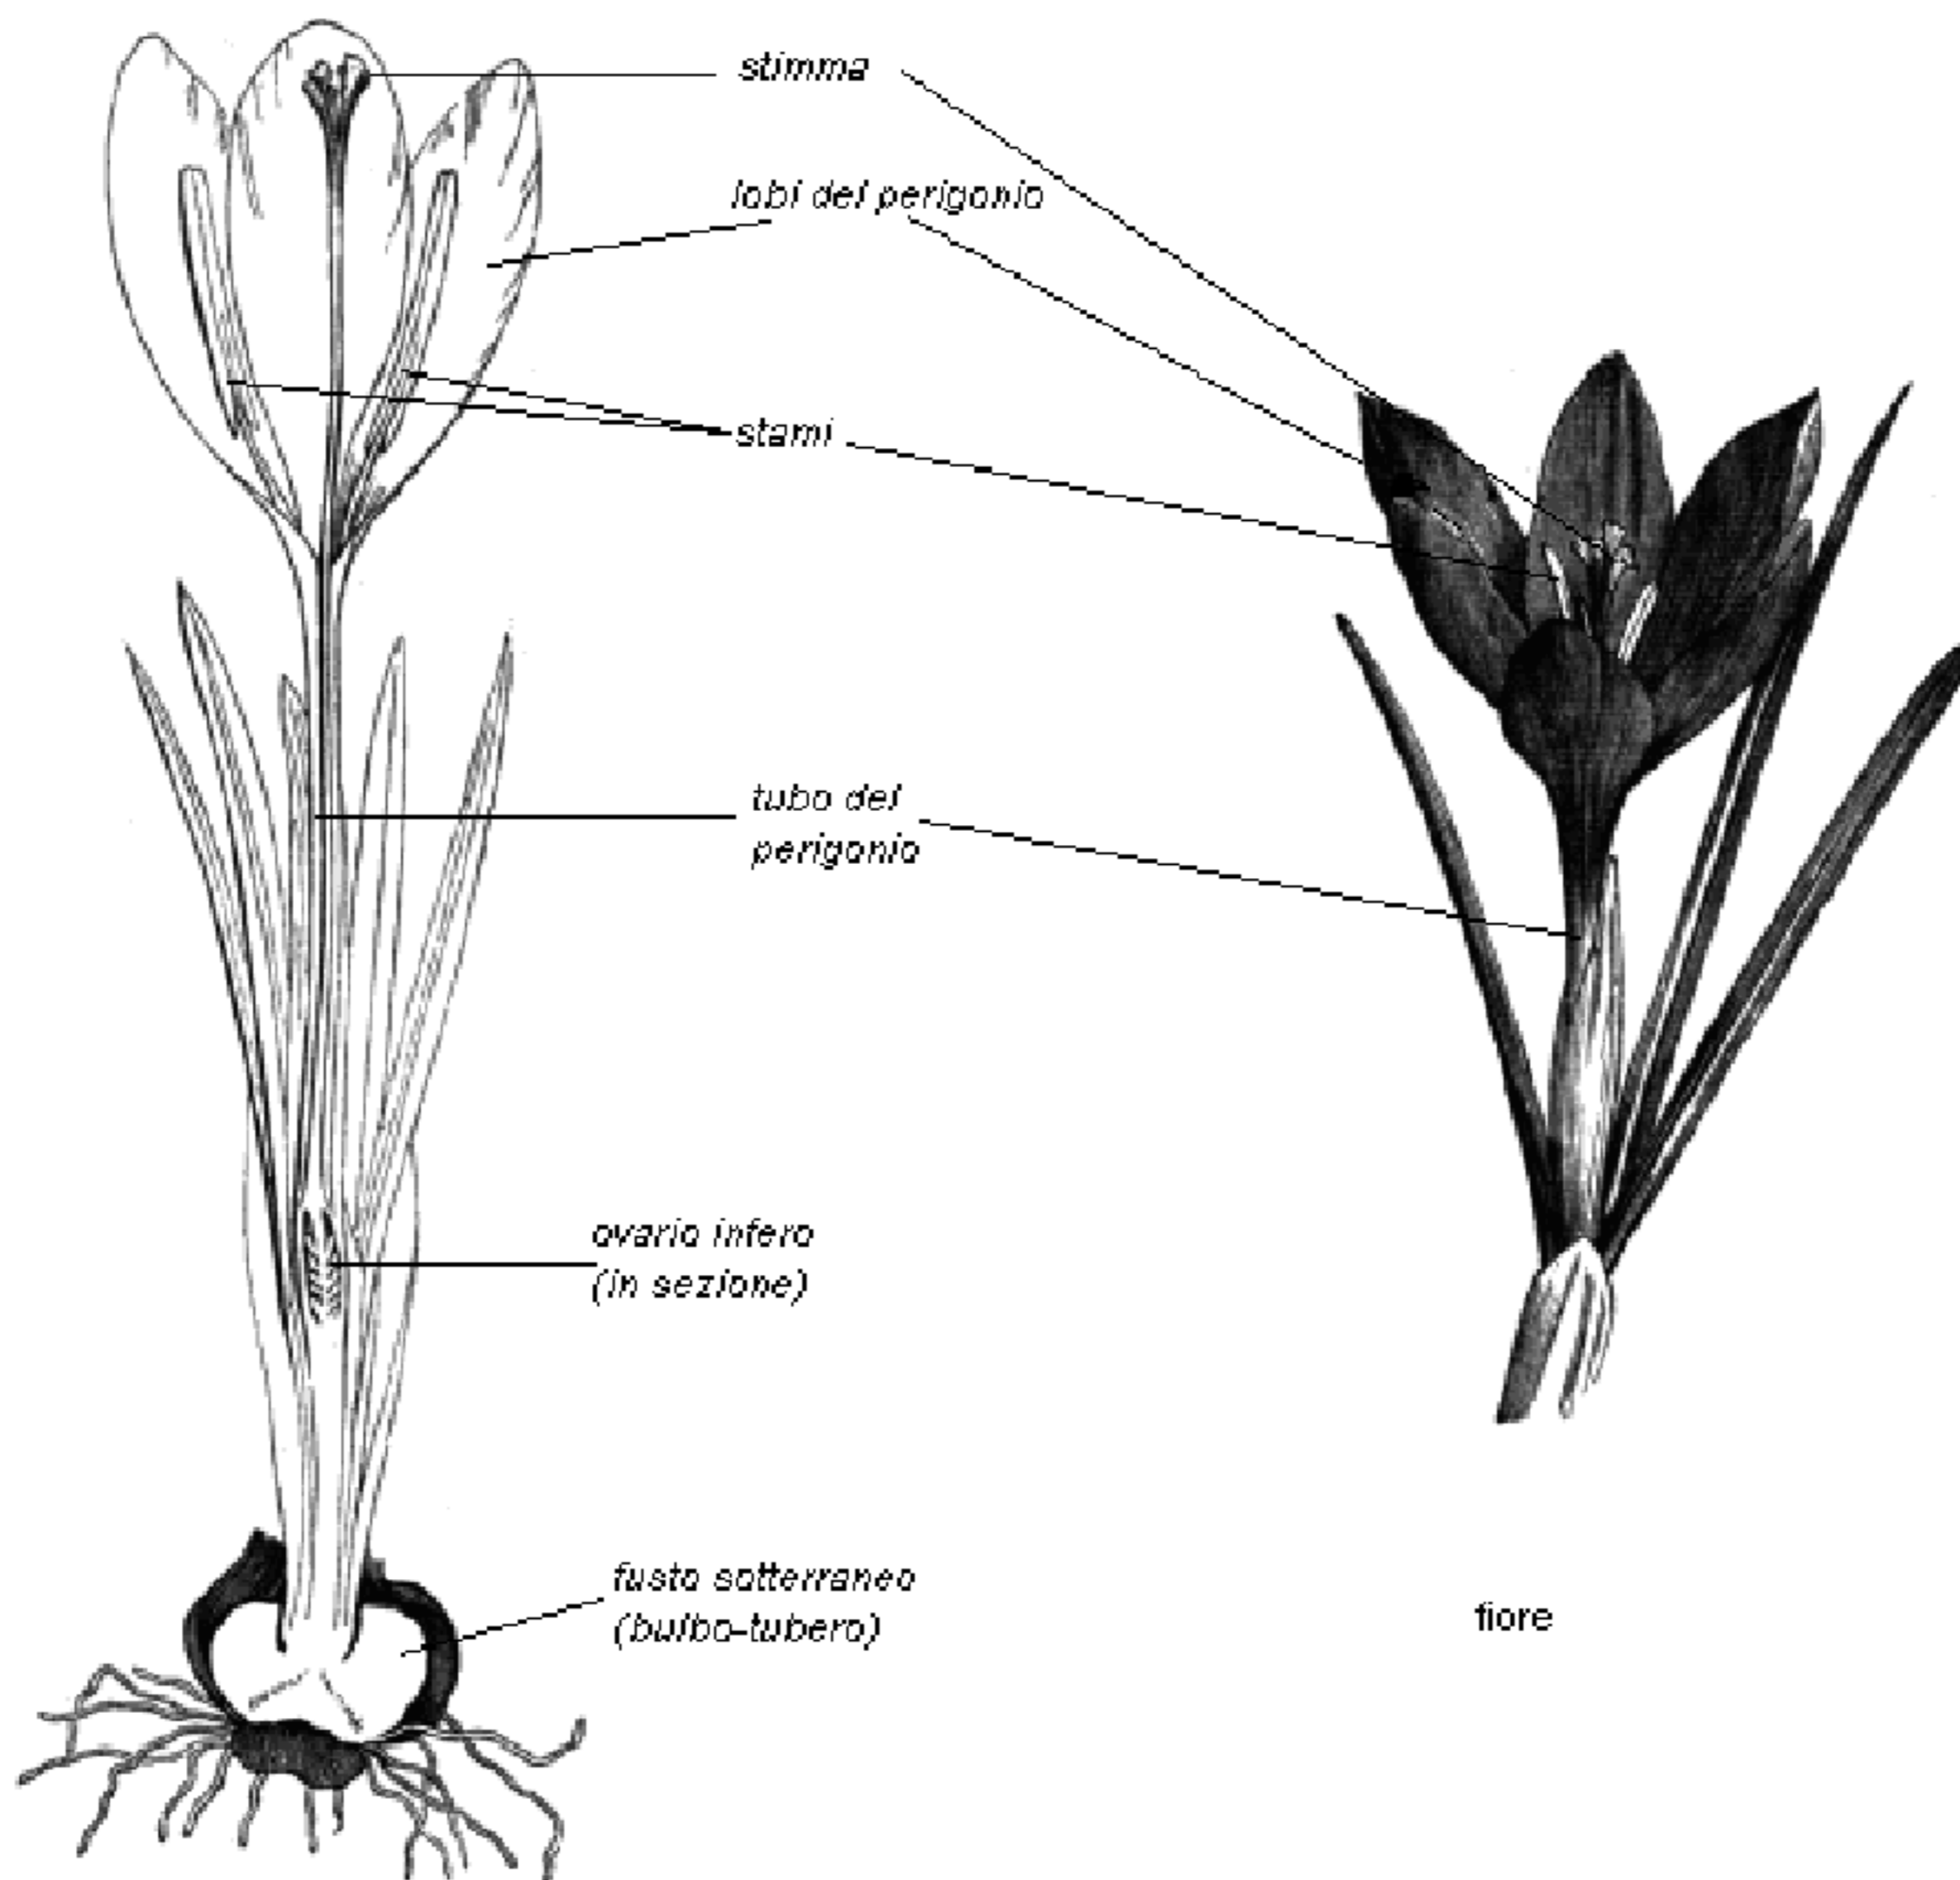

Iris germanica L.
(iris)

rizoma con foglie equitanti

frutto (capsula loculicida)

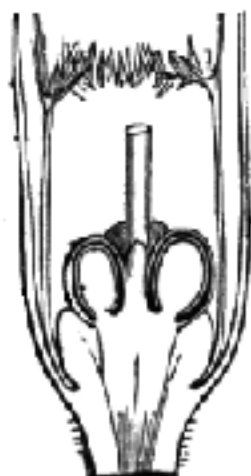

Crocus vernus (L.) Hill.

Salvia officinalis L.
(sage)

sezione del fiore

sezione della
parte inferiore
del fiore

gineceo

sezione di un
infructo
(achene)

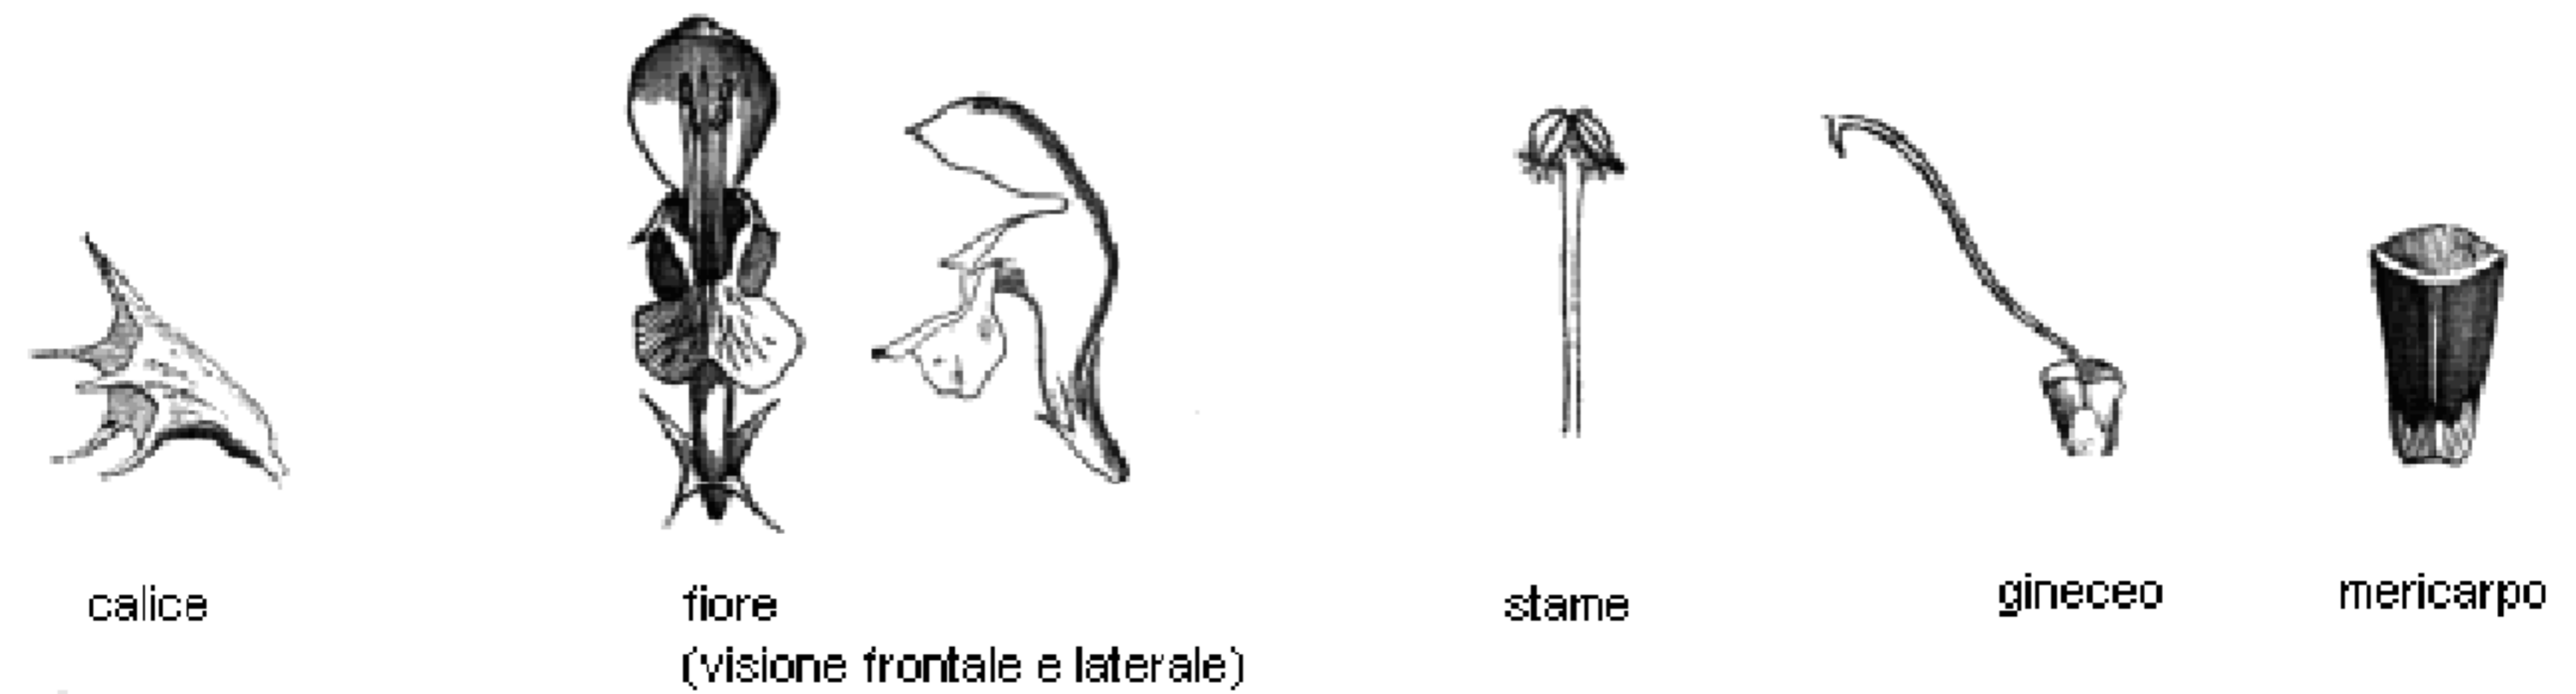

LAMIACEAE
(labiate) - I

Lamium album L.
(falsa ortica)

sezione del fiore

calice

fiore
(visione frontale e laterale)

stame

gineceo

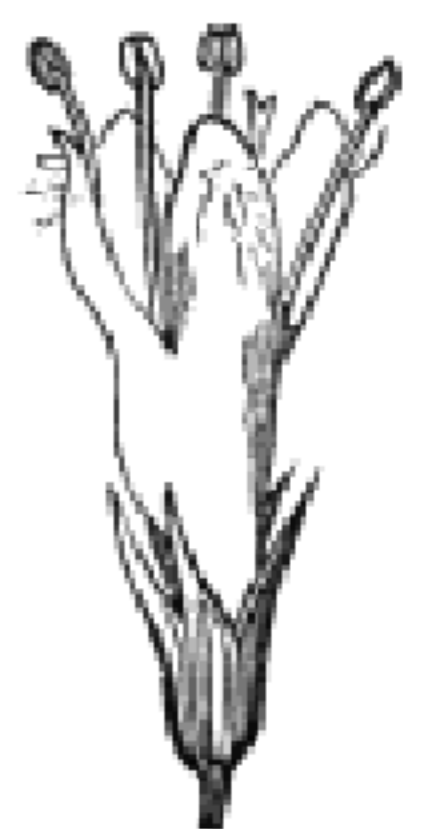

mericarpo

Ajuga reptans L.
(fiore e gineceo)

stame di
Salvia officinalis L.

fiore di
Mentha sp.

Fritillaria imperialis L.
(corona imperiale)

sezione del fiore

pistillo

sezione trasversale
dell'ovario

frutto (capsula)

Lilium sp.
(giglio coltivato)

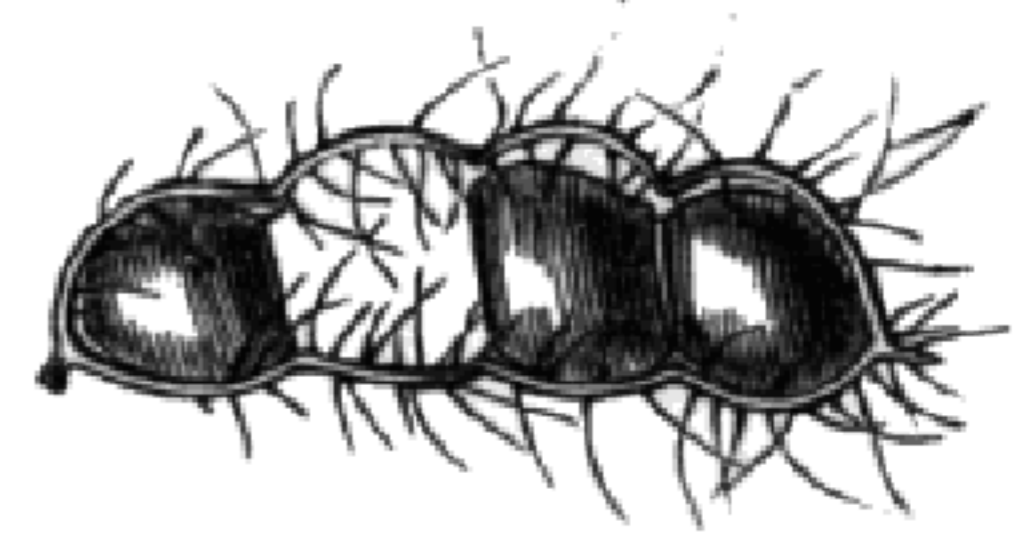

pistillo

MIMOSACEAE

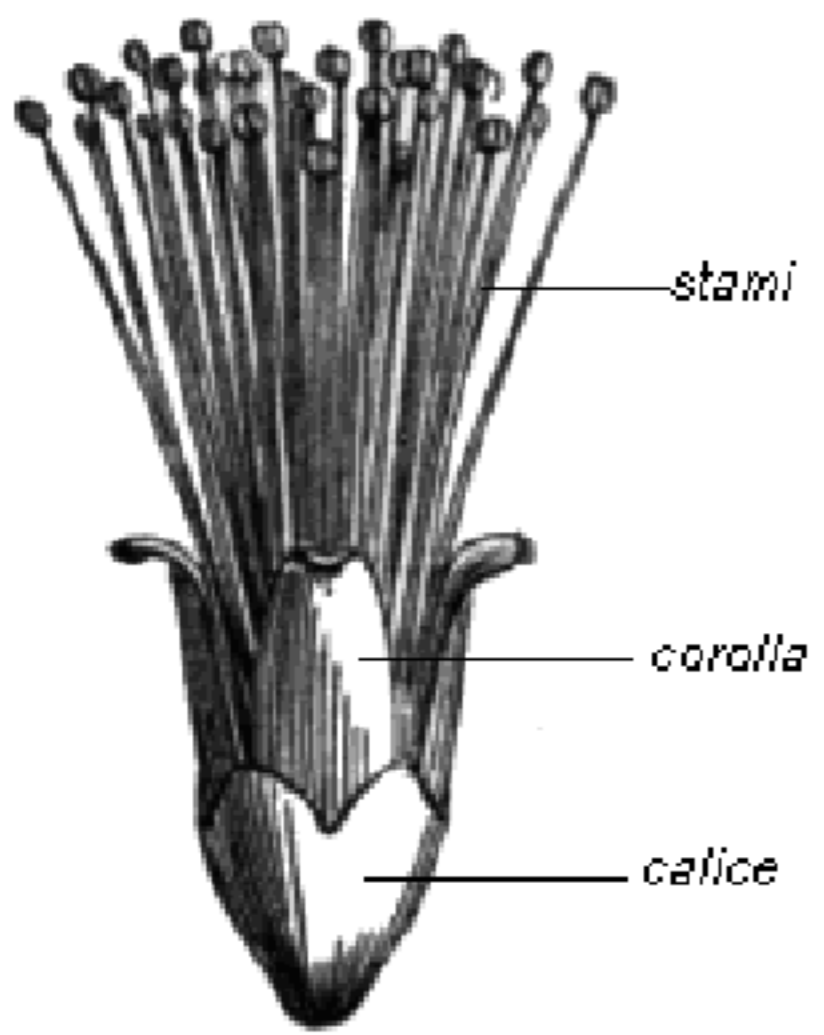

capolino

Mimosa pudica L.

Mimosa sp.
(legume)

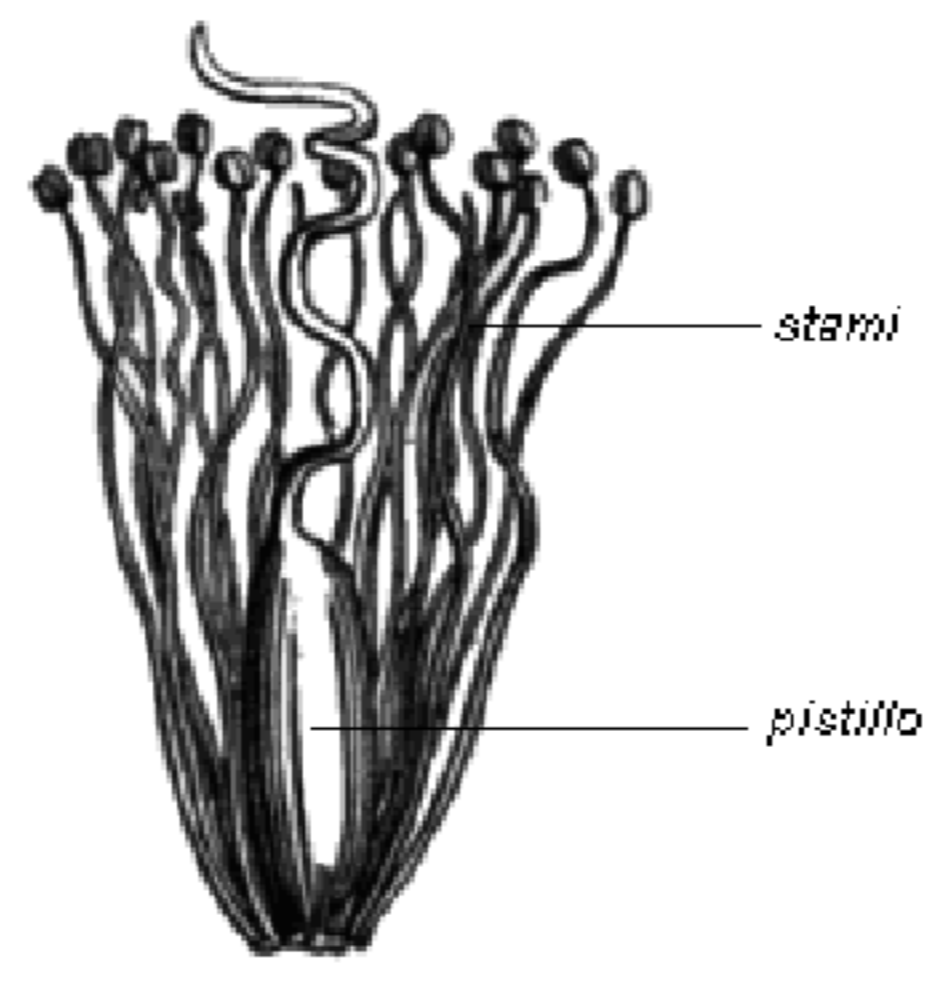

stami

corolla

calice

Acacia retinoides
fiore

stami

pistillo

Acacia juniperina
androceo e gineceo

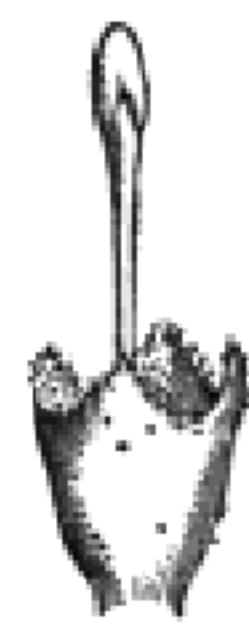

Albizzia
androceo

Syringa vulgaris L.
(lilla)

sezione del fiore

calice con
pistillo

pistillo

frutto
(capsula)

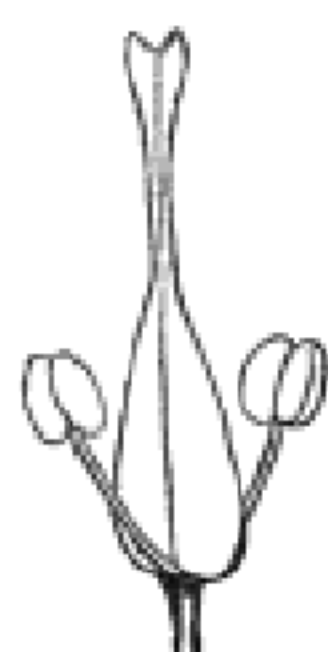

seme

sezione
del seme

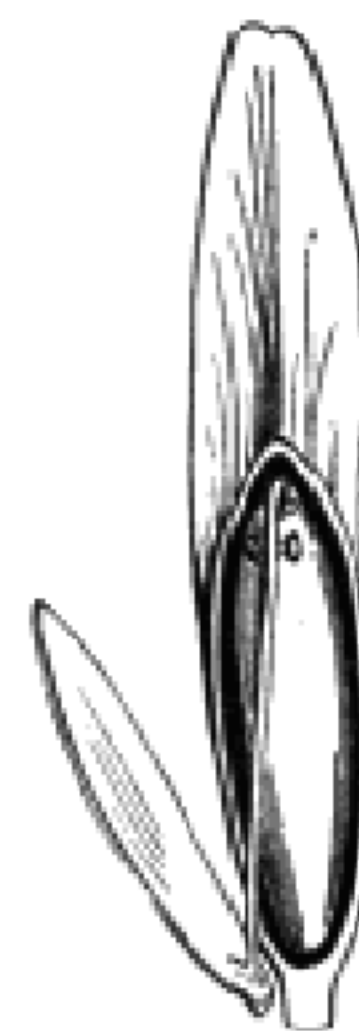

Fraxinus ornus L.
(orniello)
fiore

Fraxinus excelsior L.
(frassino maggiore)
fiore

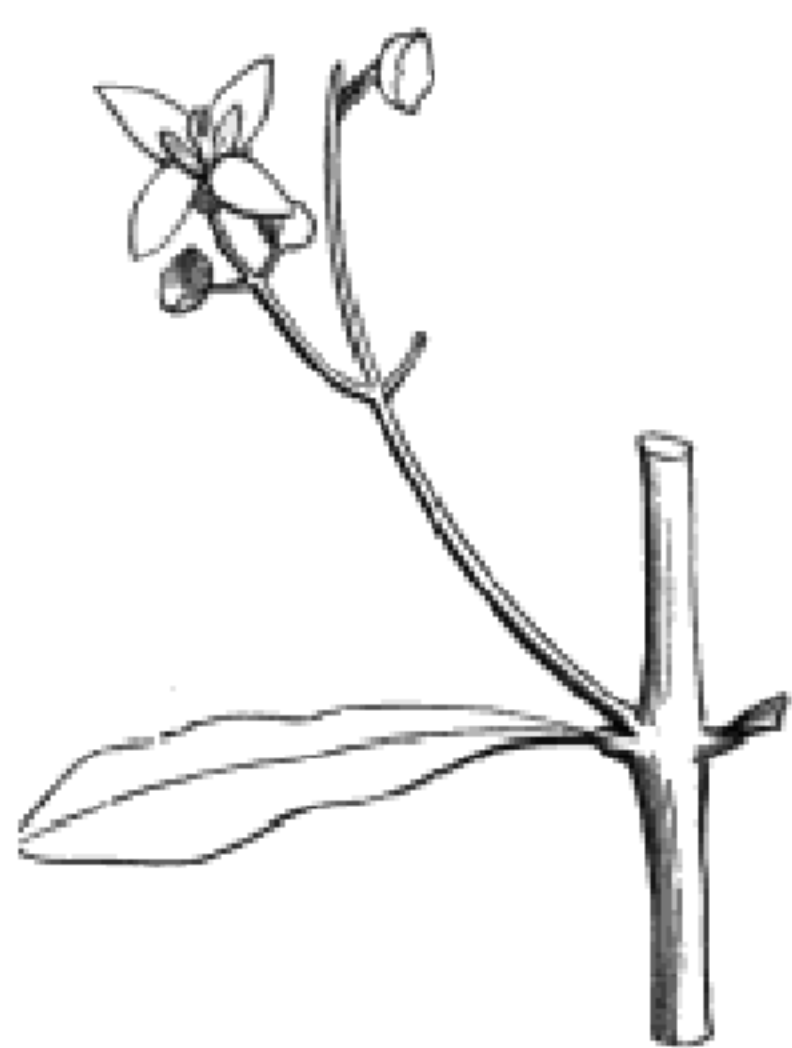

frutto di frassino
(sàmara)

sezione di sàmara

seme di
frassino
(sezione)

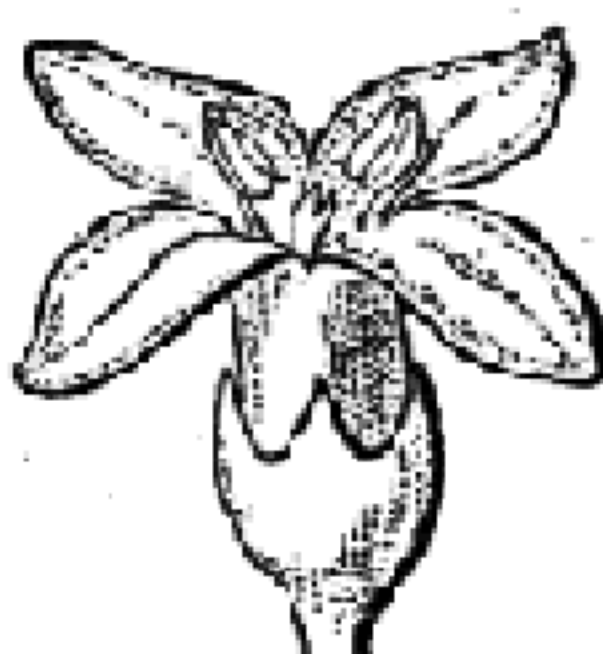

Olea europaea L.
(olivo)

calice e
gineceo

frutto
(drupa)

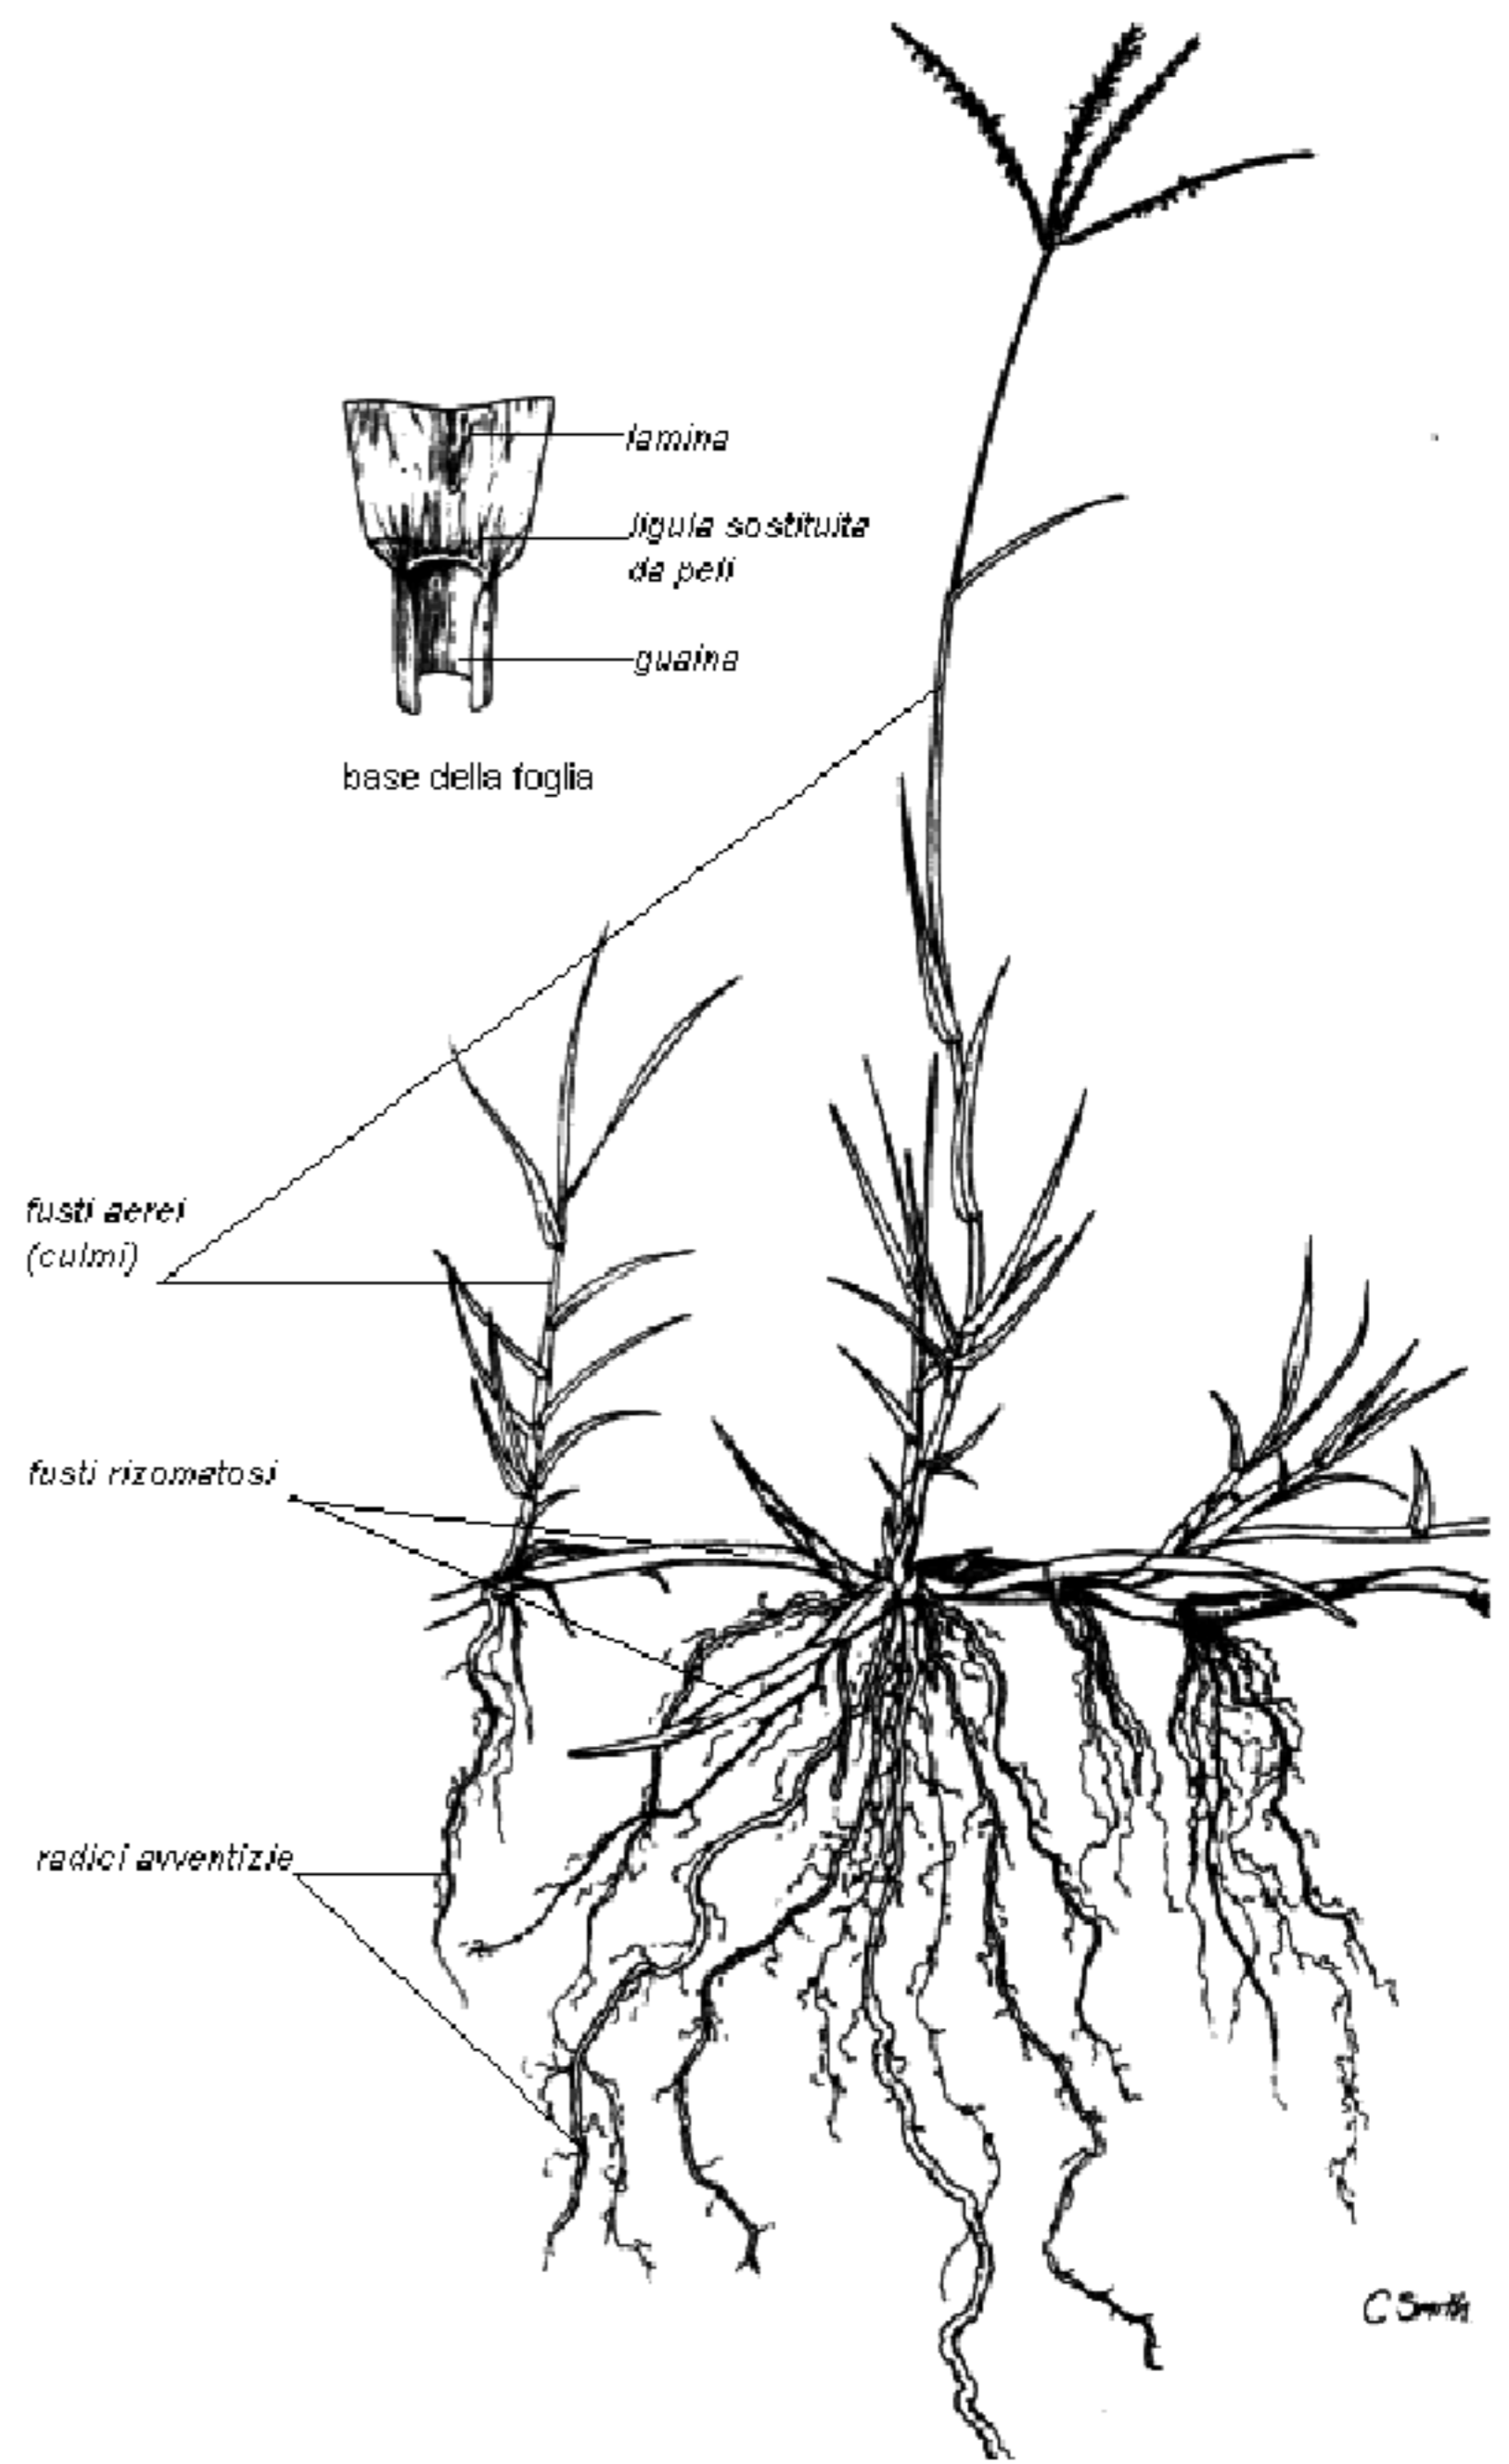

Ligustrum vulgare L.
(ligustro)
fiore

calice e ovario
(sezione)

POACEAE
(graminacee) - IV

Cynodon dactylon (L.) Pers.
(gramigna)

C.S. 1944

gluma superiore
gluma inferiore
